Schedule 4

AUDITOR'S REPORT

COPY OF CERTIFICATE

Schedule 1

This is to certify that I have audited the accounts of the Selectmen and Treasurer. In my opinion, the statements as represented by Schedules numbered 1 to 5 inclusive are so drawn as to exhibit a true and correct view of the condition of the town's affairs as shown by the books of the Town of Standish, Maine, for the year ending January 31, 1931.

(Sgd.) LEWIS H. HIGGINS,
Public Accountant and Auditor.

SCHEDULES

- 1—Auditor's Certificate and List of Schedules.
- 2—Statement of Assets and Liabilities.
- 3—Summary of Accounts.
- 4—Comparative Statement of Revenue and Expenses.
- 5—Statement with Analysis of Each \$100.00 Expended.

SCHOOL REPORT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens
of the Town of Standish:*

The annual report is herewith submitted:

This is a day of changing objectives in education. One of the most discussed subjects is, "What should be included in the course of study."

A new State course of study is now in preparation. Tentative courses have already been submitted. In this work it will be a great advantage to have available the results of investigation and research in the field of education during the past ten years. New theories have been carefully tested out so that they are no longer in the experiment stage. The results have been so convincing that there seemed to be a need of revising the subject matter in textbooks and in the course of study. No radical changes have been suggested, but rather that the subjects should be correlated with the abilities and progress of the pupils, and more thorough training in fundamentals. Subject matter has been introduced which has a practical relation to everyday life. Faulty methods of instruction greatly handicap students.

The trend of education today is to do away with material infrequently used. Much research work has been done in determining the place and importance of each subject in the course, and instruction no longer consists in memorization of facts. It has been recommended that in teaching arithmetic, subject matter, such as cube root, partial payments, compound interest and matter seldom used, be omitted. It has been found in many instances that a subject has been studied for the purpose of mental discipline and there has resulted a waste of time and a loss to the pupil through failure to secure more useful knowledge. Yet it is difficult to find a course of study that satisfies the requirements of the overcrowded curriculum of our rural schools.

We have been fortunate in Standish, in retaining some of our strong teachers for several years, both in the high school and in the elementary schools. The results have shown that it was a wise policy to retain these teachers and increase the salaries. We have been able to retain Principal Rupert Johnson in the high school for six years. The standing of our high school in scholarship and in athletics has been very satisfactory. It requires a number of years to build up a constructive school program; to get acquainted with the working conditions and the community; and work to the best advantage for all concerned. It is for the best interests of the town to maintain a strong teaching force without any reduction of salaries. In this way we can make our schools of more value to the community. In the past we changed teachers too frequently for the good of the schools.

The situation has changed in regard to the supply of teachers, but there has been no general tendency to reduce salaries. Sometimes schools are run with low-salaried teachers with an apparent saving to the town, yet with a loss in teaching efficiency and an inevitable loss to the pupils. The work of the teacher of real ability even at a higher salary is worth much more in the lives of the pupils than the difference in salaries would indicate.

The Parent-Teacher Association has been most helpful in bringing our schools in contact with the community. Much credit should be given those who have been active in organizing the P. T. A. and have put in much time and effort in making a success of the meetings. We have had excellent coöperation from the teachers and pupils in putting on programs and projects. The programs have been very instructive and educational. I mention in particular the school program of the Albion Howe School; the physical education program and the State of Maine program by the Richville School. These programs have been a credit to the schools, and we realize the amount of work necessary in preparation for these activities. The attendance has been excellent.

All of these school and community activities have been made possible during the past year by having available such a splendid auditorium, which would take care of the large audiences which have attended on these occasions. Now we are in a position to appreciate the advantage of the annex to the community and realize how much such an addition was needed.

We still need more assembly hall seats. After paying all outstanding accounts on the annex and finishing the stage in part, we had sufficient funds for only one hundred assembly hall seats. We need at least 150 additional seats.

The assembly hall should be the best room for study in the building. In order to use this room in part for a classroom, we need students' desks and seats.

We have appreciated the generosity of Dr. C. P. Wescott each year in the prizes which he has given the high school. Again we have recently had an evidence of Dr. Wescott's interest in our school and his generosity in his splendid gift of the Standard Reference Work and Library books and a very instructive chart of chemical symbols. These gifts will be a most helpful aid to our school.

The attention of teachers and pupils is called to the fact that the library at Richville is available for their use, and it is hoped that they will avail themselves of the splendid opportunities afforded by it. Through the courtesy of Prof. Moody, this library is well provided with reference books which have been placed there in the interest of the schools in town.

We have appreciated the interest that has been manifested in our schools this year and the splendid co-operation that we have received.

Respectfully submitted,

GEORGE E. JACK,
Superintendent.

WARRANT FOR TOWN MEETING

MARCH 2, 1931

*To Fred E. Cole, a Constable of the Town of Standish,
County of Cumberland, State of Maine, GREETING:*

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to to assemble at the Town House in said town on Monday, the second day of March next, at ten o'clock in the forenoon, to act upon the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the town will vote to elect one or more road commissioners for the ensuing year.

Art. 3. To choose all necessary town officers for the ensuing year.

Art. 4. To examine and allow accounts.

Art. 5. To hear and act upon reports.

Art. 6. To see what sum the town will vote to pay the selectment for the ensuing year. *500*

Art. 7. To see what sum the town will vote to pay the superintending school committee for the ensuing year. *500*

Art. 8. To raise money for treasurer's fees. *150*

Art. 9. To raise money for constable's fees. *25*

Art. 10. To vote on collector's fees. *100*

Art. 11. To raise money for support of the poor. *3500*

Art. 12. To raise money for common schools. *11000*

Art. 13. To raise money for free high school. *6000*

Art. 14. To raise money for repairs and insurance of school buildings. \$2000.

Art. 15. To raise money for the purchase of text-books and supplies. \$1500.

Art. 16. To raise money for town officers' bills. 3000.

Art. 17. To raise money for contingent expenses. 2000.

Art. 18. To raise money for music instruction in the schools. \$700.

Art. 19. To raise money to purchase flags for schools. \$50.

Art. 20. To see if the town will vote to raise the sum of \$93.60 to pay one year's interest on the Standish school fund notes. \$93.60

Art. 21. To see if the town will vote to raise the sum of \$4,650.00 to pay the trail note. Yes

Art. 22. To see if the town will vote to raise a sum of money to pay interest on town notes. \$300.

Art. 23. To see if the town will vote to raise a sum of money for abatements. \$200.

Art. 24. To see if the town will vote to raise a sum of money for the maintenance of fire chemicals and equipment. \$600.

Art. 25. To see if the town will vote to raise a sum of money for the maintenance of patrol roads and third class highway. \$2,450.

Art. 26. To raise money for the repairs of highways. \$8,000.

Art. 27. To see if the town will vote to fix the price of labor upon the highways for the ensuing year. \$3.50

Art. 28. To see if the town will vote to raise a sum of money for permanent improvements of highways. \$1000.

Art. 29. To see if the town will vote to raise a sum of money for repair of bridges. \$300.

Art. 30. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State Aid, as provided in Section 20 of Chapter 28 of the Revised Statutes of 1930. *Yes*

Art. 31. To see if the town will vote to authorize the selectmen and treasurer of the town to hire the necessary sum of money and issue town notes therefor to entitle the town to State aid under Article 32. *32*

Art. 32. To see if the town will vote to raise a sum of money to be used for oiling roads. *\$2,200*

Art. 33. To see if the town will vote to raise a sum of money for the use of the Charles A. Warren Post Patriotic Association, to be used for the proper observance of Memorial Day and the decoration of the graves of deceased soldiers and sailors. *\$25.00*

Art. 34. To see if the town will vote to raise a sum of money for mothers' aid. *\$500.*

Art. 35. To see if the town will vote to raise a sum of money, the interest of which to be used for the care of its burial lots in the village cemetery and any residue of the interest remaining from such use to be used in the general care of the yard. *\$100.*

Art. 36. To see how much money the town will vote to grant and raise for assembly hall seats in the high school building and other school equipment. (By request of school committee. *\$1000.*

Art. 37. To see if the town will vote to authorize the superintending school committee to continue the Limington Bridge School for the whole or a part of the ensuing year, if in their judgment it seems advisable, providing said school fail to maintain the attendance required by law. (By request of the school committee.)

Art. 38. To see if the town will vote to instruct the superintending school committee to continue the suspension of the South Standish School for the whole or a part of the ensuing year, if in their judgment it seems advisable. (By request of the school committee.)

Art. 39. To see what action the town will take regarding the town farm for the ensuing year.

Art. 40. To see if the town will vote to instruct the selectmen and town treasurer to make temporary loans pending the collections of taxes.

Art. 41. To see if the town will vote to extend the street lights from Millard Boulter's to the Ben Burnham place.

Art. 42. To see if the town will vote to raise a sum of money for street lights for the ensuing year. *\$2,650.*

Art. 43. To see if the town will vote to allow a discount on taxes paid before a certain date, or charge interest and fix the rate of interest thereon on taxes due after a certain date and set a date at which time all taxes will be due and payable.

Art. 44. To see if the town will vote to re-locate the highway at Lakeview as surveyed and plotted by the State highway commission.

Art. 45. To see if the town will vote to buy a road machine and raise money for the same. *\$250.*

Art. 46. To see what sum of money, if any, the town will vote to grant and raise for the repair of the road from Henry Hamlin's past the residences of J. E. Harmon and Elmer Ford to the A. M. Rich place, so called. (By petition.) *\$500.*

Art. 47 To see what action the town will take regarding building a bridge on route no. 114 near Riches Mill and raise money for the same. *\$1200.*

Art. 48 To see if the town will vote to endorse the passage of the Legislative Bill to require the Portland Water District to pay taxes on their exempt property the same as other property in the town. (By petition.)

Art. 49 To see what action the town will take, if any, regarding the use to be made of the automobile excise tax for the ensuing year.

Art. 50 To see what action the town will take regarding creating a fund for insurance for its various buildings.

The selectmen will be in their office for the purpose of revising and correcting the list of votes from ten o'clock in the forenoon to four o'clock in the afternoon, Saturday February 28, 1931.

Given under our hands at Standish this twenty-first day of February, 1931.

JOHN T. J. PARKER,
WILBERT A. LIBBY,
HAROLD W. DOLLOFF.

Selectmen of Standish.

AUDITOR'S REPORT

"COPY OF CERTIFICATE"

This is to certify that I have audited the accounts of the Selectmen, Treasurer and Collector and in my opinion the statements as represented by Schedules numbered 1 to 7 inclusive are so drawn as to exhibit a true and correct view of the financial condition of the town's affairs as shown by the books of the Town of Standish, Maine, for the year ending January 31, 1932.

(Sgd.) AUDITING SERVICE BUREAU, INC.,

By LEWIS H. HIGGINS,
Public Accountants and Auditors.

LIST OF SCHEDULES

- 1—Statement of assets and liabilities.
- 2—Summary of accounts.
- 3—Comparative statement of revenue and expenses.
- 4—Statement showing analysis of each \$100.00 expended.
- 5—Analysis of town poor account.
- 6—Detailed analysis of departmental accounts.

BALANCE SHEET—JANUARY 31, 1932

SCHOOL REPORT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens
of the Town of Standish:*

The annual report is herewith submitted:

In the present economic situation it is reassuring to note what is being accomplished in the field of education. Our schools are not only holding their own but a definite progress is noted. The standard of work accomplished by teachers has improved notably. There has been an increased enrollment, better attendance, and fewer pupils are leaving school. There has been an increased interest in the value of education and the importance of education is emphasized more than ever at this time. There has never been a greater opportunity for the schools to serve the community.

At this time all of our buildings are in a very good condition of repair. Our building and remodelling programs have been completed. So the cost of repair and upkeep of our school buildings should be considerably reduced. It would seem desirable to reduce these costs as well as those for equipment and supplies during the present emergency. Our schools are now so well equipped that a reduction in expenditures will not impair the efficiency of the work.

With the present over-supply of teachers, it is possible to have an adequately trained teacher for each school. A situation favorable to a better standard of work. We are positive that today we are receiving better returns on the money invested than ever. It is true that there has been a considerable advance in the cost of education during the past ten years. But these increased expenditures are considered justified in view of the value of education and the increased demands upon our schools. While considering any possible reduction of salaries in view of the difficulty of teacher placement, we should remember the cost of a two-year normal training course and the years of successful experience of many of our teachers. We are demand-

ing more of our teachers in school administration than ever before. These additional requirements include new subject matter in the course of study; oversight of school buildings, and playground activities. A very important requirement is the oversight of pupils during the noon hour. In addition to classroom instruction and routine work, the law requires that physical education and recreational exercises be given in the schools. Teachers are expected to teach music as outlined by the music supervisor.

The coöperation of parents and teachers is requested in dealing with communicable diseases. When a disease appears in a school it is apt to spread through the entire school and cause economic loss through lowered attendance, cost of fumigation and burning textbooks.

The State survey on retardation this year disclosed the following interesting facts relative to causes of retardation in the grades. When we remember the economic loss caused by retardation in our schools, these reasons take on added importance. The more important causes given in the report on this survey were: frequent school changes; sickness; poor health; lack of parental influence and lack of application. It is obvious that many of these causes can be remedied by securing well-trained teachers who will work in coöperation with the parents.

It is pleasing to note the renewed interest in the course in music in all schools under the direction of our new music supervisor, Mr. H. A. D. Hurd. A very definite progress has been made under his instruction.

OPENING SOUTH STANDISH SCHOOL

In maintaining the schools the plan has always been to maintain the school that would suit the convenience of the majority of pupils. At South Standish the distribution of scholars was such that it seemed desirable to change the plan of conveyance; to close the Elmwood School and reopen the South Standish School. This plan would accommodate the larger number of scholars as far as accessibility to school was concerned and fewer pupils would be under the necessity of conveyance. In the South Standish building the walls and ceilings need to be cleaned of smoke and then painted.

REPAIRS AND EQUIPMENT

New assembly hall seats have been secured for the high school auditorium. Now large audiences can be taken care of without the necessity of transporting seats from the town hall. It has been a great help this year to utilize the assembly hall in part as a class and study room. Heyward & Wakefield student seats and desks were secured. These seats were finished in the walnut color which conserves the eyesight by eliminating the glare. Bench seats were secured instead of single pedestal seats. These seats are more durable and can easily be put on strips in combination with the desks. This arrangement makes it possible to remove the seats and desks so that the entire hall can be used for school activities.

We have appreciated the new assembly hall which was greatly needed. However, it was apparent that we needed a curtain and dressing-rooms for the stage in order to put on school entertainments in a suitable manner. In order to preserve the stage in its entirety it was decided to put up draperies instead of wooden partitions. The attractive new curtain and draperies have been very much appreciated by the teachers and students. The best quality of velour was secured for the curtain and front while an excellent quality of repp was used for the partitions and the back of the stage. The draperies were obtained at a very favorable price. The money (\$55.88) obtained from the school entertainment put on under the direction of Mrs. Leah Petersen was applied to help pay for the curtain. The draperies were obtained from Eastman Bros. & Bancroft.

It was necessary to purchase window shades for the large recitation room. The low-priced shades in the past have not given satisfaction. Adjustable draper shades were purchased for this room. These shades are of a light color and admit just the right amount of light, and are adjustable so that the light is admitted without glare from the right direction. These shades are constructed out of duck cloth and are so durable that they will last for years. It has been difficult to

obtain light in this room free from glare on account of the gloss paint on the walls and ceiling.

Some very necessary painting and renovating has been done in the Limington Bridge building. The principal's office in the High School building has been renovated, and a cabinet has been built into the partition in the hallway to serve as a trophy case. The cupola in the High School has been closed in so that there is no further leaking from this source although the plastered ceiling in the old building was damaged to the extent that some repair work will be necessary.

We have appreciated the gift to the High School of the electric clock by the class of 1931.

It was necessary to have a considerable amount of work done on the furnaces in the Sebago Lake building. A new furnace and a new ventilating system were installed at the Steep Falls building. It was found that it would be more economical to put in a new furnace rather than attempt to repair the old furnace.

The importance of a good supply of pure drinking water was emphasized in one of the recent State bulletins. Another year an effort should be made to have a better water supply for the Sebago Lake Grade School building. The work of digging a well has already been partly completed, and at a small additional cost a good supply of drinking water should be available.

The two large rooms and hallway of the Sebago Lake school building have been painted inside in light, attractive colors. A new bookcase and a new primary table for seat work and primary grade chairs have been secured for the primary room in this building. A new reading table was secured for the High School assembly hall. On account of the increased enrollment in the commercial course in the High School, it was necessary to purchase a new Royal typewriter. This machine is furnished with the latest tabulating devices.

Respectfully submitted,

GEORGE E. JACK,
Superintendent.

REPORT OF SUPERVISOR OF MUSIC

To the School Board and Citizens of Standish,

GREETINGS:

It becomes my pleasure to await on you with my report of the aim, requirements and progress of the music department of the public schools.

The aim of the course in music is to give elementary instruction in sight singing and musical appreciation, so that the pupils may have an all-round conception of the art enabling them to participate and understand it to the highest possible degree. Further to encourage those who have exceptional talent to pursue its study more extensively, not in singing alone but by taking up other instruments.

I have outlined the following requirements: Instruction in sight singing, using the do, mi, sol system: Strict rudiments of music, including notation, time, rhythm, dynamics, and keys. Music appreciation and correlation also form an important part of the course giving the less musical pupils an opportunity to enter into music study from the broadest angle.

Just a few words of explanation regarding correlation: in other words, drawing from a music lesson an arithmetic, geography or drawing lesson. It is possible to do this with every subject taught, and we have conducted many such lessons during the fall term; its purpose saves time for the teacher, and strengthens and broadens the mind of the pupil along creative lines of the highest order. This is pioneer work in Maine and New England, and Standish is one of the first towns to do such work. At a recent parent-teachers' meeting, Miss Miller and Mrs. Cole of the Sebago Lake School gave a demonstration of this type of work. This was the second demonstration of its kind given

in the State, and put your schools in the position of "Creators of History" for the department of education in the State of Maine.

Music forms an important part of all school and community activities. Christmas is the happiest time for our boys and girls. Every school and community had its Christmas tree and program. The major part of all of these programs was music. Every school sang the standard Christmas hymns and carols.

The celebration of the Washington Bicentennial has its connection with music. For the remainder of the winter term and part of the spring term the lives and music of contemporary musicians of Washington will be studied. Among the great masters are Bach, Handel, Hayden, Mozart and Beethoven, all living and active during Washington's time; and from America, Francis Hopkinson, our first native composer and a close friend of Washington.

The High School has a mixed chorus of fifty-six voices, as well as a girls' glee club. A program is being formulated for a spring concert to be given with the Buxton High School Chorus. The combined choruses will number over one hundred voices.

In conclusion, let me say that the elementary study of music has a two-fold purpose: it not only helps students to appreciate the finer branches of art leading to better living, but it quickens the mind and gives them a command of their faculties that no other study can give.

All of the above work has been and is being accomplished by the coöperative efforts of the citizens of Standish, the board of selectmen, the school board, the superintendent of schools, and an efficient teaching staff.

Respectfully submitted to the citizens of Standish this first day of February, 1932.

H. A. D. HURD,
Supervisor of Music.

WARRANT FOR TOWN MEETING**MARCH 7, 1932**

*To Fred E. Cole, a Constable of the Town of Standish,
County of Cumberland, State of Maine, GREETING:*

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to assemble at the town house in said town on Monday, the seventh day of March next, at ten o'clock in the forenoon, to act upon the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the town will vote to elect one or more road commissioners for the ensuing year.

Art. 3. To choose all necessary town officers for the ensuing year.

Art. 4. To hear and act upon reports.

Art. 5. To examine and allow accounts.

Art. 6. To raise money for treasurer's fees.

Art. 7. To raise money for constable's fees.

Art. 8. To vote collector's fees.

Art. 9. To raise money for the support of the poor.

Art. 10. To raise money for common schools.

Art. 11. To raise money for the free high school.

Art. 12. To raise money for repairs and insurance of school buildings.

Art. 13. To raise money for the purchase of text books and supplies.

Art. 14. To raise money for town officers' bills.

Art. 15. To raise money for contingent expenses.

Art. 16. To raise money to purchase flags for schools.

Art. 17. To see if the town will vote to raise the sum of \$93.60 to pay one year's interest on the Standish school fund notes.

Art. 18. To raise money for music instruction in the schools.

Art. 19. To see if the town will vote to raise a sum of money for interest on town notes.

Art. 20. To see if the town will vote to raise a sum of money for abatements.

Art. 21. To see if the town will vote to raise a sum of money for the maintenance of fire chemicals and equipment.

Art. 22. To see if the town will vote to raise money for the maintenance of patrol roads.

Art. 23. To raise money for the repair of highways and fix the price of labor thereon.

Art. 24. To see if the town will vote to raise a sum of money for permanent improvements of highways.

Art. 25. To see if the town will vote to raise a sum of money for repair of bridges.

Art. 26. To see if the town will vote to raise a sum of money to pay the trail note.

Art. 27. To see if the town will vote to raise a sum of money to be used for oiling roads.

Art. 28. To see what sum, if any, the town would recommend to take from the joint State aid account for the purpose of applying bituminous surface treatment to State aid roads built within the past five years in accordance with the provisions of Chapter 271, P. L. 1931.

Art. 29. To see if the town will vote to raise the sum of \$1,002.00 for maintenance of third class roads.

Art. 30. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State Aid, as provided in Sec. 20 of Chapter 28 of the Revised Statutes of 1930.

Art. 31. To see if the town will vote to authorize the selectmen and town treasurer to the necessary sum of money and issue town notes therefor to entitle the town to State Aid under Article 30.

Art. 32. To see if the town will vote to raise a sum of money for the use of the Charles A. Warren Post

Patriotic Association, to be used for the proper observance of Memorial Day and the decoration of the graves of deceased soldiers and sailors.

Art. 33. To see if the town will vote to raise a sum of money for mothers' aid.

Art. 34. To see what sum the town will vote to pay the superintending school committee for the ensuing year.

Art. 35. To see what sum the town will vote to pay the selectmen for the ensuing year.

Art. 36. To see what action the town will take regarding the town farm for the ensuing year.

Art. 37. To see if the town will vote to instruct the selectmen and town treasurer to make temporary loans pending the collection of taxes.

Art. 38. To see if the town will vote to raise a sum of money for street lights for the ensuing year.

Art. 39. To see if the town will vote to allow a discount on taxes paid before a certain date, or charge interest and fix the rate of interest thereon on taxes due after a certain date and set a date at which time all taxes will be due and payable.

Art. 40. To see if the town will vote to raise a sum of money to pay the balance due on the Rich Mill Brook bridge, so called, on route No. 114.

Art. 41. To see if the town will vote to raise a sum of money for the services of the nurses of the Cumberland County Public Health Association.

Art. 42. To see what action the town will take with a petition presented to the town by John I. Williams and twenty-three others.

Art. 43. To see if the town will vote to authorize the selectmen to sell the stone crusher.

Art. 44. To see if the town will vote to authorize the selectmen to spend not more than fifty dollars on the old road leading from Lester Hodgkins to the Buxton line.

Art. 45. To see what action the town will take regarding the removal of snow and ice for the winter of 1932-1933.

Art. 46. To see if the town will vote to discontinue the road leading from Dow's Corner to the Ossipee Trail near the old Edgecomb place.

Art. 47. To see what action the town will take regarding the list of jurors as prepared by the selectmen, town clerk, and treasurer.

Art. 48. To see if the town will vote to authorize the superintending school committee to continue the Limington Bridge School for the whole or a part of the ensuing year, if in their judgment it seems advisable, providing said school shall fail to maintain the attendance required by law. (Recommendation of the school committee.)

Art. 49. To see if the town will vote to instruct the superintending school committee to appoint a school pension of the Elmwood School for the whole or a part of the ensuing year, if in their judgment it seems advisable.

Art. 50. To see if the town will vote to authorize the superintending school committee to appoint a school physician.

Art. 51. To see if the town will vote to raise the sum of \$400 to repair "York Hill" so called (By petition).

Art. 52. To see what action, if any, the town will take regarding cutting wood and timber on the town lots.

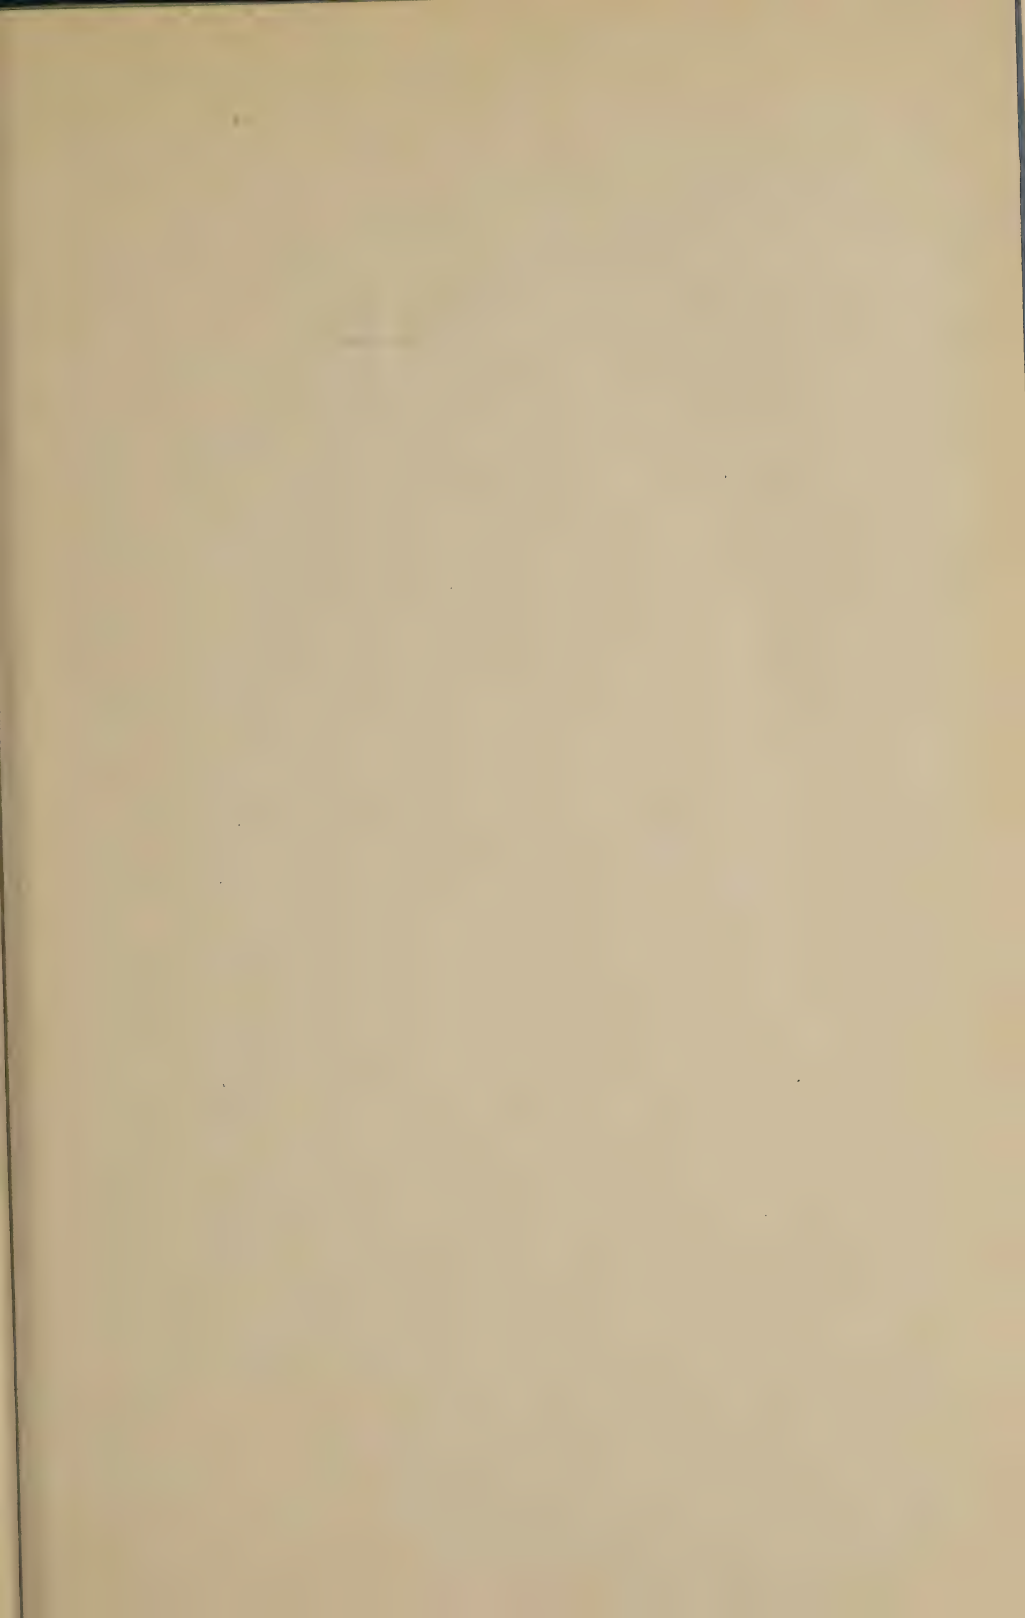

Art. 53. To see if the town will vote to raise the town's share of the cost of a new bridge between the towns of Windham and Standish known as Eelweir bridge.

Art. 54. To see if the town will vote to authorize the selectmen to purchase such equipment as they deem necessary to put in good condition the fire equipment now owned by the town and raise money for the same.

Art. 55. To see what action the town will take regarding the purchase of new fire equipment to replace the Chemical No. 1, now stationed at Sebago Lake Village, and raise money for the same (By petition).

The Selectmen will be in their office for the purpose of revisin and correcting the list of voters from ten oclock in the forenoon to four oclock in the afternoon, on Saturday, March 5, A. D. 1932.

AUDITOR'S REPORT

COPY OF AUDITOR'S CERTIFICATE

Augusta, Maine, Feb. 20, 1933.

This is to certify that we have audited the accounts of the Selectmen, Treasurer and Collector of the Town of Standish for the year ending January 31, 1933, and that the foregoing statements are correct and properly reflect the financial standing of the town to the best of our knowledge and belief.

(Sgd.) DEPARTMENT OF STATE AUDITOR.

By A. W. REEVES.

SCHOOL REPORT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens
of the Town of Standish:*

The annual report is herewith submitted:

Today it is evident that we must adjust our schools to a general program of economy and relief from taxation. Yet we cannot afford to lower our educational standards. We can cut down the costs in various ways. We can shorten the school year and we can reduce salaries. Yet a radical reduction in salaries may mean a reduction in efficiency. It is hard for us to compute the real value of our schools in dollars; or the service to the community of those teachers who have devoted many years to the work. Their salaries never have been high compared with those paid in other professions. Our teaching force is well trained and efficient as the result of years of experience. The work that they accomplish points to their ability.

We have a large enrollment in the high school this year, including the post graduate students. Owing to the increased enrollment the per capita cost has decreased. In view of the size of the school the salaries paid are not excessive. The amount of work has increased in all activities. The condition of the school with the excellent attendance, with only a few leaving school and several students returning to take post graduate work, indicates the interest on the part of the students in the school, and the successful work of the teachers.

We are sure that the teachers realize their responsibility regardless of the salaries paid, to carry on the work to the best of their ability, and maintain the best standard possible under existing conditions even if salaries are reduced to the levels of the pre-war period. However, we also recognize the situation from the standpoint of the taxpayer. It is hoped that by coöperation we may escape the situation in which many towns find themselves at this time, whereby the work is retarded and the teachers unpaid through lack of funds. We should give the matter careful attention and avoid the extreme conditions:—i. e., too rigid economy

on the one hand or failure to cut down the costs where there is urgent need.

We are confronted by a situation in which all sources of revenue have been greatly reduced. This is true of the State resources. The valuation of the State (\$757,-289,579.00 in 1930) has been reduced over sixty million dollars. The amount of the State school fund to be apportioned to the schools will be reduced approximately \$260,000.00. It is estimated that this will affect the apportionment to the towns by 18-20%. It is necessary for us to face this emergency and recognize this situation as inevitable. It would seem that there is no other way by which we can deal with this condition save by cutting costs. It is hoped that there will be no reductions so drastic as to interfere with school progress. Our first consideration should be to conserve the welfare of the community. For our future good we must guard against any action that may cause the children in our communities to suffer a serious educational set-back. Curtailment beyond a certain point ceases to be economy.

Experience has taught us that schools run at too low costs in teachers' salaries may be very expensive in the end, and educationally may mean an irreparable loss to pupils. Changes in teachers many times have been costly experiments. Lower salaries in the long run will have a tendency to lower our requirements in training and impair classroom instruction. Let us remember that our schools are of vital importance to the community and that any reduction in salaries would only affect the individual taxpayer slightly. In order to affect a substantial saving a considerable reduction should be made in all departments.

REPAIRS

A heavy load of work was carried by each teacher in the elementary schools at Sebago Lake at the beginning of the fall term. It seemed necessary to lessen the number of pupils per teacher by separating grades 1 and 2 from the primary group. The plan of locating another school in the church vestry has worked out very satisfactorily. Fewer pupils have been assigned to each teacher so that more time is available for individual instruction, and more ground is covered by the pupils. A noticeable improvement in the work has been

the result, and much better progress has been noted. We were fortunate in securing a teacher, who by training and experience was particularly well fitted for the work. This teacher is a part-time teacher so the cost is not as great as for a full-time position. We appreciate the fact that we have been permitted the use of the church vestry for this purpose. Small primary tables were constructed and small kindergarten chairs were available. This arrangement gives more freedom and better working conditions for small children. Now that we have the first two grades as a unit the work can be carried on as in the kindergarten to a certain extent. The vestry was well adapted for a study and classroom in most respects, except for light, and this difficulty has been overcome by using electric lights. The lights were changed and a few other repairs made at a small cost. The large heater from Elmwood was moved over and heats very satisfactorily. The low ceiling makes it particularly easy to heat. This plan of using the vestry has saved the town the expense of building a new school building. A large group of our school population happens to be at Sebago Lake, although the overcrowded condition which was in Miss Miller's room is not at all unusual in the State. Yet this year the handicap was greater, owing to the number in the first grade where the pupils require a large amount of individual attention.

It was found that the plastering in the recitation room over the commercial room was broken, unsightly, and in danger of falling. It is a wise policy to make all repairs as permanent as possible. Steel walls are very satisfactory in durability and in appearance. Steel seemed the best material to use for repair work. Enough material was on hand for the walls. Boston metal in attractive patterns was secured for the ceiling. The ceiling was painted a flat paint in a light cream color and a soft diffused light is secured, which is so desirable in a study room, with glare entirely eliminated. A very satisfactory bookstack has been constructed for storing the reserve supply of books. This stack is much more convenient for checking and distributing books on hand, and it is possible to take better care of the books. The fence on the high school lot has been repaired on one side and galvanized iron posts have

replaced the cedar posts. The plan of using the wood on town lots has worked out in a very satisfactory manner in cost of fuel and in conserving the school buildings. It has been necessary to replace the fire-boxes in the furnaces frequently in buildings where we have been using soft coal, where they have been burned out by the intense heat, and it has been necessary to clean and paint the walls and ceilings frequently where they have been blackened in using soft coal. The old steps at the high school building were broken and unsafe. New concrete steps have been constructed to replace the old steps. The new steps are very substantially built and should last many years without any repair being needed. A new set of the Book of Knowledge has been secured for the high school.

Respectfully submitted,

GEORGE E. JACK,

Superintendent of Schools.

To the Citizens of Standish,

GREETING:

It is with pleasure that I greet you with a report of the progress of the music course in your schools.

The first and most important step is to get all the boys and girls to sing in perfect pitch. The percentage that do not is being overcome by tone drills and individual attention. The important point is to keep the classes well leavened with perfect pitch pupils: by doing this, the monotone condition will never present itself again.

The second step is to read music. This nearly every pupil in Standish can do, beginning with the fourth grade, and in some instances with the third. With this a careful training in Theory (tools of music) is given. My outline for the eight years includes the rudiments of music, scale building, dynamics and tempo marks. The value of daily contact with these cannot be overestimated in its relation to the further study of violin, piano or voice.

The third step is to participate in part singing. This is the purpose of the entire course. All but two of the schools in Standish can sing in two and three parts with

ease. This feeds the high school with good readers for the more advanced work.

The high school chorus is much larger than last year and is doing much better work. I have divided it into three divisions: unison, four part, and girls' glee club. We have sufficient repertoire this year to give a concert during the spring term. We furnished music for graduation and prize speaking. This eliminates extra expense for the graduating class and the Alumni Association.

Christmas is a happy season for all. We sang the standard carols in the schools and added some new ones. It is my purpose to add to these each year. The Standish Corner school gave "The Adoration" in the Congregational Church. The Sebago Lake school gave a harvest program in the early autumn and the Steep Falls school is giving a musicale the last of this month.

The outstanding event of the year was the pageant celebrating the bicentennial of Washington's birth. This was written by your music supervisor and dedicated to your supervisor of schools, George E. Jack. A copy will be found in the State Library and at Washington. In this your schools made history for themselves and their town. It needs no review because it remains fresh with you who saw it. The lessons of history, of culture and beauty it taught the boys and girls will make a lasting impression on them.

I wish here to express my appreciation to the pupils, parents, teachers and all who worked with such zeal.

In closing, let me say that music is one of the few things that your boys and girls will take away from school which will remain with them through life. It will be one of the bright spots. What would life be without music? Europe has always taught music in her schools. If the present and future generations are coming to a five-day week and a six-hour day, they will have to look to art and music with the other branches of education to take up the spare time. Music is no fad, it is no luxury, it is not a necessity, but it is a part of life. Many children would never receive any of its benefits if it were not for the public schools. Through your efforts you have builded well; the condition of music in your schools is such today that you are ready

to make rapid strides. The present depression is a challenge to us who have dedicated our lives to our children and the children of others, to keep our standards in the hour of trial to hold the torch of Education high, that we may not lose faith with the boys and girls whose destiny is in our hands.

Respectfully submitted to the citizens of Standish
this first day of February, 1933.

H. A. D. HURD,

Supervisor of Music.

WARRANT FOR TOWN MEETING

MARCH 1, 1933

To Fred E. Cole, a Constable of the Town of Standish,
County of Cumberland, State of Maine, GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to assemble at the town house in said town on Monday, the sixth day of March next, at ten o'clock in the forenoon, to act upon the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the town will vote to have one or more road commissioners for the ensuing year.

Art. 3. To choose all necessary town officers for the ensuing year.

Art. 4. To hear and act upon reports.

Art. 5. To examine and allow accounts.

Art. 6. To raise money for treasurer's fees. \$120.00

Art. 7. To raise money for constable's fees. 25.00

Art. 8. To vote collector's fees. 170

Art. 9. To see what sum the town will vote to pay the superintending school committee for the ensuing year.

Art. 10. To see what sum the town will vote to pay the selectmen, assessors and overseers of the poor for the ensuing year. 40 per m.

Art. 11. To raise money for the support of the poor 40 per m. 5500.

Art. 12. To raise money for common schools. 9000.

Art. 13. To raise money for the free high school. 3500.

Art. 14. To raise money for repairs and insurance of school buildings. 1200.

Art. 15. To raise money for textbooks and supplies. 1000.

Art. 16. To raise money for town officers' bills. \$1800.

Art. 17. To raise money for contingent expenses. 1200.

Art. 18. To raise money for music instruction in schools. \$500.

Art. 19. To see if the town will vote to raise the sum of \$93.60 to pay one year's interest on the Standish school notes.

\$93.60

Art. 20. To see if the town will vote to raise money for interest on town notes.

\$400.

Art. 21. To see if the town will vote to raise a sum of money for the payment of State Aid road note.

\$4357.50

Art. 22. To see if the town will vote to raise a sum of money for maintenance patrol roads.

\$1300.00

Art. 23. To see if the town will vote to raise a sum of money for oiling roads.

\$1600

Art. 24. To raise money for the repair of highways and fix the price of labor thereon. \$2.00

\$8.00 each 16000
\$5.00 each

Art. 25. To see what sum of money the town will vote for the maintenance of fire chemicals and equipment.

\$500.

Art. 26. To see if the town will vote to raise money for third class road maintenance.

\$1191.

Art. 27. To see if the town will vote "yes" or "no" on the question of raising and appropriating money necessary to entitle the town to State Aid, as provided in Section 20 of the Revised Statutes of 1930. yes

Art. 28. To see if the town will vote to authorize the selectmen and town treasurer to hire the necessary sum of money and issue town notes therefor to entitle the town to State Aid under Article 27.

Art. 29. To see what sum, if any, the town would recommend to take from the joint State Aid account for the purpose of applying bituminous surface treat-

ment to State Aid roads built within the past five years, in accordance with the provisions of Chapter 271, Public Laws of 1931.

Art. 30. To see if the town will vote to authorize the assessors to rescind any amounts appropriated by the town for State Aid highway construction in excess of the amount required to meet State apportionments. *yes*

Art. 31. To see if the town will vote to raise a sum of money for abatements. *\$250*

Art. 32. To see if the town will vote to raise a sum of money for repair of bridges. *\$300.*

Art. 33. To see if the town will vote to raise a sum of money for mothers' aid. *\$480*

Art. 34. To see if the town will vote to raise a sum of money for the use of the Charles A. Warren Post Patriotic Ass'n, to be used for the proper observance of Memorial Day and the decoration of the graves of deceased soldiers and sailors. *\$250*

Art. 35. To see if the town will vote to raise a sum of money for street lights for the ensuing year. *\$220*

Art. 36. To see what action the town will take regarding the town farm for the ensuing year.

Art. 37. To see if the town will vote to instruct the selectmen and town treasurer to make temporary loans pending the collection of taxes.

Art. 38. To see what action the town will take regarding the removal of snow and ice for the winter of 1933-1934.

Art. 39. To see if the town will vote to allow a discount on taxes paid before a certain date, or charge interest and fix the rate of interest thereon on taxes due after a certain date, and set a date at which time all taxes will be due and payable.

Art. 40. To see what action the town will take regarding the payment of notes issued for the construction of State Aid roads built in 1932, and raise money for the same.

Art. 41. To see if the town will vote to pay a part ~~\$7500.~~ or the whole of the notes issued for the construction of Eel Weir bridge, and raise money for the same. 2200

Art. 42. To see if the town will vote to authorize the superintending school committee to continue the suspension of the Elmwood school for the whole or a part of the year if in their judgment it seem advisable.

Art. 43. To see if the town will vote to authorize the superintending school committee to appoint a school physician.

Art. 44. To see if the town will vote to raise a sum of money for white pine blister rust eradication.

Art. 45. To see if the town will vote to abolish the voting precinct of Steep Falls within the Town of Standish.

Art. 46. To see if the town will vote to authorize the selectmen to sell one or more of the town tractors and snowplows.

Art. 47. To see if the town will vote to raise a sum of money to be expended on the road leading from Richville to Steep Falls.

Art. 48. To see if the town will vote to have an itemized town report, commencing with the 1933 report. (By petition of E. A. Chaplin and nine others.)

Art. 49. To see if the town will vote to have the town reports printed with itemized account and valuation and taxes of both resident and non-resident real estate owners, commencing with the year 1933. (By petition of E. A. Chaplin and nine others.)

Art. 50. To see if the town will vote to instruct the selectmen to cause the establishment of the corners of the North East Road and Maple Street, so called, where they terminate at the shore of Sebago Lake. (By petition of H. C. Witham and sixteen others.)

Art. 51. To see if the town will vote to build or allow Phillip F. Decormier, Leander A. Dole, Paul Slocum and or other citizens of the town to build and maintain a public wharf at either or both of the above mentioned roads, and what sum of money, if any, the town will raise to help build the same, and to authorize the Selectmen to receive on behalf of the town donations for said purposes. (By petition of H. G. Witham and sixteen others)

Art. 52. To see if the town will vote to raise a sum of money for public health nurses.

Art. 53. To see what the town will vote to pay the members of the fire companies in the discharge of their duties.

Art. 54. To see if the town will vote to accept the legacy bequeathed the town by the late Alpheus S. Harmon.

Art. 55. To see what action the town will take regarding the purchasing of a new fire truck, and raise money for the same.

The selectmen will be in session at their office for the purpose of revising and correcting the list of voters, from nine o'clock in the forenoon to five o'clock in the afternoon on Saturday, March 4, A. D. 1933.

Given under our hands at Standish this twenty-fifth day of February, A. D. 1933.

HAROLD W. DOLLOFF,
JOHN T. J. PARKER,
WILBERT A. LIBBY,

Selectmen of Standish.

WARRANT FOR TOWN MEETING

MARCH 5, 1934

*To Fred E. Cole, a Constable of the Town of Standish,
County of Cumberland, State of Maine, GREETING:*

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to assemble at the town house in said town on Monday, the fifth day of March next, at ten o'clock in the forenoon, to act upon the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the town will vote to have one or more road commissioners for the ensuing year.

Art. 3. To choose all necessary town officers for the ensuing year.

Art. 4. To see if the town will vote to accept the report of the town officers for the year 1933-1934.

Art. 5. To raise money for treasurer's fees.

Art. 6. To raise money for constable's fees.

Art. 7. To vote collector's fees.

Art. 8. To see what sum the town will vote to pay the superintending school committee for the ensuing year.

Art. 9. To see what sum the town will vote to pay the selectmen, assessors and overseers of the poor for the ensuing year.

Art. 10. To see what sum of money the town will vote to raise for the support of the common schools.

Art. 11. To see what sum of money the town will vote to raise for support of the high school.

Art. 12. To see what sum of money the town will vote to raise for repairs and insurance of school buildings.

Art. 13. To see what sum of money the town will vote to raise for textbooks and supplies for schools.

TOWN OF STANDISH

Art. 14. To see what sum of money the town will vote to raise for the support of the poor.

Art. 15. To see what action the town will take regarding the town farm for the ensuing year.

Art. 16. To see what sum of money the town will vote to raise for town officers bills for the ensuing year.

Art. 17. To see what sum of money the town will vote to raise for contingent expenses.

Art. 18. To see what sum of money the town will vote to raise for music instruction in the schools.

Art. 19. To see what sum of money the town will vote to raise for interest on town notes.

Art. 20. To see if the town will vote to raise the sum of \$93.60 for interest on the Standish school notes.

Art. 21. To see if the town will vote to raise a sum of \$1860.00 to pay the State Aid road note.

Art. 22. To see if the town will vote to raise a sum of money for maintenance patrol roads.

Art. 23. To see what sum of money the town will vote to raise for the repairs of highways.

Art. 24. To fix the price of labor on the highways.

Art. 25. To see if the town will vote to raise a sum of money for oiling roads.

Art. 26. To see if the town will vote "yes" or "no" on the question of raising and appropriating money necessary to entitle the town to State Aid, as provided in Section 20 chapter 28 of the Revised Statutes of 1930.

Art. 27. To see what sum the town will appropriate and raise for the improvement of the section of State Aid road as outlined in the report of the State Highway Commission (in addition to the amounts regularly raised for the care of ways, highways and bridges) under provisions of Sec. 19 Chap. 28, Revised Statutes of 1930, or under the provisions of Sec. 3, Chap. 175, Public Laws of 1933.

ANNUAL REPORT

Art. 28. To see what sum, if any, the town would recommend to take from the joint State Aid account for the purpose of applying bituminous surface treatment to State Aid roads built within the past five years, in accordance with the provisions of Chapter 271, Public Laws of 1931.

Art. 29. To see if the town will vote to authorize the selectmen and town treasurer to hire the necessary sum of money and issue town notes therefor to entitle the town to State Aid under Article 27.

Art. 30. To see if the town will vote to raise the sum of \$953.00 for the maintenance of improved third class roads or to be used in conjunction with the State apportionment for the construction of third class road.

Art. 31. To see what sum of money the town will vote to raise for chemical maintenance.

Art. 32. To see if the town will vote to raise a sum of money for abatements.

Art. 33. To see if the town will vote to raise a sum of money for repair of bridges.

Art. 34. To see if the town will vote to raise a sum of money for mothers' aid.

Art. 35. To see if the town will vote to raise a sum of money for the use of the Charles A. Warren Post Patriotic Ass'n, to be used for the proper observance of Memorial Day and the decoration of the graves of deceased soldiers and sailors.

Art. 36. To see if the town will vote to raise a sum of money for street lights for the ensuing year.

Art. 37. To see if the town will vote to raise a sum of money for public nurse

Art. 38. To see if the town will vote to allow a discount on taxes paid before a certain date, or charge interest and fix the rate of interest thereon on taxes due after a certain date, and set a date at which time all taxes will be due and payable.

TOWN OF STANDISH

Art. 39. To see if the town will vote to instruct the selectmen and town treasurer to make temporary loans pending the collection of taxes.

Art. 40. To see what action the town will take regarding the removal of snow and ice for the winter of 1934 - 1935.

Art. 41. To see what action the town will take regarding the payment of notes issued for the construction of State Aid roads built in 1932, and raise money for the same.

Art. 42. To see if the town will vote "to accept and extend the so called Wood Road (which road begins at a point between the Radcliff property and the Rand property on the Bridgton road beginning from Sebago Lake and running in the direction of East Sebago) approximately 3,000 feet in an easterly direction to Harmon's Beach, Sebago Lake." (By petition of Carroll R. Warren and others)

Art. 43. To see if the town will vote to authorize the superintending school committee to continue the suspension of the Elmwood school for the whole or a part of the year if in their judgment it seem advisable.

Art. 44. To see if the town will vote to authorize the superintending school committee to appoint a school physician.

Art. 45. To see if the town will vote to raise the sum of \$25.00 to be used by the Standish Village Cemetary Ass'n in grading the town lot.

Art. 46. To see if the town will vote to purchase a piece of land adjoining the Town House and raise money for the same.

Art. 47. To see if the town will vote to reopen the Elmwood School for the ensuing year.

Art. 48. To see if the town will vote to have a revaluation or an equalization of taxes on the property in the town made during the ensuing year and raise money for the same.

Art. 49. To see if the town will vote to reopen about 500 feet of road from Buxton line to McCarrison's Hill and raise money for the same. The portion to be reopened starting at Buxton line and extending towards Bonny Eagle Lake. (By petition of C. C. Boulter and nine others)

ANNUAL REPORT

Art. 50. To see if the town will vote to build an addition to the grammar and primary school building at Sebago Lake and raise money for the same. (By petition)

The selectmen will be in session at their office for the purpose of revising and correcting the list of voters, from ten o'clock in the forenoon until four o'clock in the afternoon on Saturday, March 3, 1934.

Given under our hands this this twenty-fourth day of February, 1934 at Standish.

JOHN T. J. PARKER,

WILBERT A. LIBBY,

CLINTON B. WEEKS,

Selectmen of Standish.

Unexpended to 1934,	159.17	
		<hr/> \$8,188.54

The money raised for the poor has been paid to the following people and the amount received by each is carried in the first column. We set aside \$1,000.00 as Standish Relief Fund. Those who worked under this fund have received a credit to the amount of help that they received and that amount is carried to the second column.

AUDITOR'S REPORT

COPY OF AUDITOR'S CERTIFICATE

Portland, Maine, February 2, 1934

This is to certify that I have audited the accounts of the selectmen, treasurer and collector of taxes of the town of Standish for the year ending January 31, 1934, and that the foregoing statements are correct and properly reflect the financial standing of the town as of date to the best of my knowledge and belief.

The very careful and competent management of the town finances by the selectmen during the past year is reflected by the financial standing of the town at the end of the past year which shows a change from a net debt of \$3,272.10 to a net surplus of \$4,923.86.

The accounts of the collector of taxes are in exceptionally good order; a settlement of all prior years taxes having been made and only a comparatively small balance of \$1,278.66 being outstanding on the commitment of last year.

A. W. REEVES.

Public Accountant and Auditor

FRED E. COLE, *Treasurer.*

SCHOOL REPORT

REPORT OF THE SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens
of the Town of Standish:*

The annual report is herewith submitted.

Education has never passed through a more critical period than that in which we are now involved. The upkeep of our schools at their present standard and the maintenance of salary schedules have become problems of vital importance. Surveys are now being conducted to assist in solving these problems with the least burden to the already heavily burdened taxpayer. This is a problem not only for us locally, but one which is widespread, and in many localities the schools have suffered severely. Many schools have been closed; many teachers unemployed; and many teachers unpaid for

TOWN OF STANDISH

long periods of time. We have been fortunate in escaping some of these conditions, even though some reductions have been necessary.

We have been able to keep most of our teachers notwithstanding adverse financial conditions and reductions in salaries. We were fortunate in the high school in retaining our teachers. It would not be easy to replace these teachers even under present conditions. We recognize the worth of these teachers to the community and their loyalty to the school in remaining, even with the financial loss to themselves. They have the experience which is so essential to successful school work; and they have been with us long enough to be thoroughly familiar with the requirements and working conditions.

Salaries should not be reduced to those low levels where the pupils are seriously handicapped. In some cases a reduction of 10 or 20% may mean a loss instead of a saving through a reduction in efficiency. And yet this loss may not be apparent at once. Under present conditions our salaries are hardly equal to those paid in other lines of work. Under the program of inflation and devaluation of the dollar, we have reduced our teachers more than was originally intended. We should be reminded again of the cost of preparation required for teaching. There will be no lowering of the standards in requirements; and this, of course, is necessary for the welfare of our schools. The requirements may even be increased for the purpose of securing a better trained personnel of competent teachers. The superior results obtained by our well-trained teachers is an evidence of the value of this training. The trained teacher understands thoroughly the technique of instruction and the application of child psychology to school problems.

We are very fortunate in not being under the necessity of that curtailment which many towns have found necessary, i. e., closing schools for long vacations, and cutting salaries to low levels; and shortening the school year to the minimum allowed by the law. We appreciate the careful consideration which school budgets have received, and the support which has enabled the schools to continue without their efficiency being impaired by radical reductions. It is obvious that the large reduction would be necessary before any sub-

ANNUAL REPORT

stantial saving to the individual taxpayer could be effected. Increasing the size of classes prevents giving sufficient individual attention; while shortening the school year lessens the educational opportunities of children. To meet the present needs and to determine the best procedures to carry out the aims of education will challenge the best efforts of the teaching profession. It would seem that this is no time for retrenching or cutting down in education. It is only through more and better education that we can deal intelligently with the grave financial problems arising.

It seems unwise to cut too radically on textbooks and supplies. These items are a very small part of our investment. Yet lack of good working equipment may seriously handicap the teachers and so cause a loss in working efficiency. There is no real economy in cutting down too much on repair work that is actually needed to safeguard the pupils or to prevent deterioration of school property.

RULINGS IN REGARD TO CONVEYANCE

No municipality and no person employed by a municipality to convey children to school may use a conveyance which provides less than one linear foot of seating space for each pupil conveyed at any one time.

In pleasure cars (so called) used for the conveyance of school children not more than two such children shall be allowed on the front seat with the operator of the motor vehicle.

School buses shall be equipped with two doors, one on the right, to be used for all ordinary exits and entrances, the other at the rear, to be controlled by the driver and used only in case of emergency.

REPAIRS

We were fortunate in having an unexpended balance in the Repair account when the C. W. A. program went into effect. This resource enabled us to buy the material by which it was possible to carry on these C. W. A. projects, which were giving local employment. Thus we were able to complete some important repair work and save the cost of labor. It was necessary to shingle certain buildings this year and it seemed wise to do this work as a C. W. A. project. Asphalt shingles were used. These shingles are very satisfactory and they will last for many years. Shingles have been purchased

TOWN OF STANDISH

for shingling the Albion Howe and Limington Bridge buildings, and finishing the shingling of the Sebago Lake building.

The following buildings have been painted on the inside: Albion Howe, South Standish, Harding, and Limington Bridge, and the pine finish has been varnished. A great improvement in lighting conditions was noticeable as the result of painting in light colors with a flat paint. These colors aid in the proper diffusion of light and eliminate glare light, and are much more satisfactory than the dark colors that had been used. We have lacked a convenient supply of drinking water in some of our buildings. So wells have been dug at Sebago Lake, Richville, and on the Albion Howe school lot, and we shall soon have an adequate supply of drinking water in our buildings.

At the High School building: the ceilings in the commercial room and in the lower hallway and book room have been painted; a cesspool of larger capacity has been constructed, and the flat metal roof, which has been leaking, will be covered with asbestos roofing cement.

Two new typewriters were purchased for the commercial department, one Royal and one L. C. Smith machine. An excellent trade-in value was secured on these typewriters for the old machines, which were needing repair. The other machines were put in good working condition without additional cost.

New adjustable Draper window shades have been secured for the Albion Howe grammar room and the Sebago Lake grammar room. These shades are of durable duck cloth, and are not easily damaged, and they give an excellent diffused light without glare.

We were glad this year to continue the health work, following the toxoid immunization work against diphtheria. This year the Tuberculin Test for Tuberculosis was given. This work was made possible through the efforts of the Nurse of the County Public Health Association and the Department of Welfare at Augusta. The tests were given by Mrs. Marion Oakes of Augusta. Number tested: boys, 104; girls, 100; adults, 15; total, 219; per cent of enrollment tested, 59%. Total reacting: boys, 3; girls, 4; adults, 3; total 10 per cent, 3% (adults not included in percentage). The reactors were X-Rayed on May 29.

ANNUAL REPORT

CONCLUSION

We have this significant message from Harold L. Ickes, Sec. of Interior: "*The fate of the schools is the most important question before the American people today.*"

There never has been a greater need for thoughtful consideration of the needs of education than today. Your coöperation is needed at this time more than during any previous school year, that we may emerge from this period without undue retardation. We appreciate the consistent support which we have received under these trying conditions.

Respectfully submitted,

GEORGE E. JACK, *Superintendent.*

REPORT OF THE SUPERVISOR OF MUSIC

To the Citizens of Standish,

GREETING :

It is a pleasure to have this opportunity to greet the citizens of Standish, and to tell you of the work I am doing in your schools. It is not necessary at this time to outline to you the plan of music theory; that has been done in previous years. Each year the work has developed into a larger and larger department, and I have been able the past year to accomplish much. First, I am happy to tell you that the percentage of boys and girls in the grammar schools that do not sing in perfect pitch is very low. It is my object as time goes on to send one hundred per cent classes to the high school so that every student there may be able to participate in part singing.

I know the musical activities of the schools in each of your communities are gratifying to you. All of the schools do some musical work at their entertainments and at the Christmas Season. Some of them I will mention. The Sebago Lake grammar schools sang the two-part Cantata Lindburgh last spring, and this month are putting on the opera, "Hansel and Gretel." At Christmas, Mrs. Watson's room gave a quaint and beautiful setting of the old French carol, "Bring Torches, Jeanette, Isabelle." The Steep Falls school furnished the Baccalaureate music for the high school, and at Christmas furnished music for the Adoration. Last spring the Standish Corner School staged a unique musicale on the lawn. This year the chorus in this school is made

ANNUAL REPORT

up of much younger pupils, but the material is excellent and will develop into a unit of fine quality.

Your High School Chorus is one of the largest in the State. This year it numbers sixty-seven; twenty-five first sopranos, eighteen altos, and twelve tenors and basses. You have all heard this chorus and I feel sure that their singing impressed you. This is the only organized musical group in your town, and its value cannot be overestimated. It has furnished music for six occasions that would have cost the school at least from fifteen to twenty-five dollars each time, had they hired outside music; and of course there is the feeling of independence in furnishing your own talent. Only the best music is sung, compositions of Bach, Verdi, Gounod, and Strauss. For this year's graduation we are preparing "The Heavens Are Telling," by Hayden, and Selections from the opera "Aida," by Verdi.

In order that all of the pupils in the High School may receive credit for music, I have introduced a course of lecture on the orchestra, covering its development, the description of each instrument, and its place in the orchestra. This course is illustrated by the excellent radio in the assembly hall.

In closing, let me say that the public schools are the nation's musical nursery. In them thirteen million boys and girls are studying music. High schools everywhere have their glee clubs and orchestras. Your schools are a part of that vast army, and I know you are justly proud of it. I am proud to be your supervisor and to work for a town that is not willing to hamper the future of its boys and girls: that group that represents the future of your town: that defenseless group that is depending on us, and our support, until they reach the age of maturity.

I wish to thank the citizens, the teachers, and all who are so loyal in helping me to carry out my work.

Respectfully submitted, this thirty-first day of January, 1934.

H. A. D. HURD,
Supervisor of Music.

NON-RESIDENT REAL ESTATE AND PERSONAL PROPERTY

Maine Central
R. R. Co.,
Portland.

A certain lot or parcel of land situated in Standish and bounded as follows:—viz, beginning at the East corner of land of Lucy Poor at a point on the boundry line between said Poor's land and division of Benj. Chadbourne's 78 feet Northerly of the South corner of the said Railroad's land fence, running Westerly so the line shall pass through an oak tree, 150 feet distant from said East corner, 200 feet thence by said last mentioned land Northwest to Sebago Lake, thence on said lot Easterly to the land of division, thence by the last mentioned land Southwest to said East corner and point of beginning. Containing 7 acres, valued,

300.

A certain lot of land situated in Standish and bounded as follows:—viz, beginning at Sebago Lake on the Northeast road, so-called, leading from Standish Corner to Sebago Lake, thence East on said lake 21 rods, thence Southwest parallel with said Northeast road to the road leading from said Northeast road across the plains to Chadbourne's landing, thence West on last mentioned road to the Northeast road aforesaid, thence Northeast on said road to the point of beginning. Containing 6 acres, more or less, together with the buildings thereon consisting of one engine house, old tank house, new tank house, engine and pump. Valued,

1,600.

A certain lot of land situated in Standish and bounded as fol-

lows:—viz, beginning on Sebago Lake at the point where the Westerly line of the so-called Northeast road leading from Standish Village joins the lake, thence South 51 degrees 30 feet West along said Northeast road 880 feet or until said line shall meet at a cross fence on the Southerly side of said lot, being distant from the guide post at the intersection of the Northeast road and county road 263 feet, thence North 42 degrees 30 feet West 350 feet to a brook, thence North 67 degrees East 500 feet to South fence line of P. & O. R. R. Co's., thence West along said Southerly fence line of said R. R. Co. to the most Westerly fence line of the Ebenezer Moulton's land on said lake, thence by the last mentioned fence line to Sebago Lake, thence by the said lake to the first mentioned bounds with buildings thereon consisting of depot building and freight house. Valued,

5,300.

A certain lot of land situated in Standish and bounded as follows:—viz, beginning at the fence of the land owned by Levi S. Davis on the West fence line of the P. & O. R. R. Co., thence West along said Company's fence line to the land of Lorenzo D. Lowell, thence by the fence of said Lowell to Sebago Lake, thence South by line of said lake to land of Lewis S. Davis, thence by line of said Davis' land of first bounds. Valued,

200.

A certain lot of land situated in Standish and bounded as fol-

TOWN OF STANDISH

AUDITOR'S REPORT

CERTIFICATE OF AUDIT

PORTLAND, ME., Feb. 8, 1935.

This is to certify that I have audited the accounts of the selectmen, treasurer and collector of taxes of the Town of Standish for the year ending Jan. 31, 1935, and that the foregoing statements are correct and properly reflect the financial standing of the town as of that date, to the best of my knowledge and belief.

The town has had an exceptionally good year financially, having made an addition of \$2,492.13 to the surplus as is shown by these statements and having a cash balance of \$6,291.75 after paying all bills.

The accounts of the treasurer are in excellent condition, all receipts and expenditures having been properly accounted for and the balance due the town is deposited in the Casco Bank & Trust Co.

The collector of taxes has settled all taxes for years prior to 1934 and has an uncollected list for that year of only \$2,054.86, which is largely represented by tax deeds.

Respectfully submitted,

A. W. REEVES,

Public Accountant and Auditor.

TOWN OF STANDISH

SCHOOL REPORT

REPORT OF SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens
of the Town of Standish:*

The annual report is herewith submitted:

The most important accomplishment in the field of education for a number of years has been the survey of the Maine School Finance Commission. This commission was appointed by Governor Louis J. Brann by authority of the last legislature. This commission was composed of fifteen citizens from different parts of the State, with President Kenneth C. M. Sills of Bowdoin College as chairman. This commission recommends more State Aid for schools and relief to the taxpayer. They propose to equalize the privileges of school children and equalize the burden of taxation. The recommendations in brief are:

1. To guarantee to every community a minimum program of \$27 per pupil per year in elementary schools amounting to \$783 per classroom on a 11 mill equalized local rate for school purposes (\$46 per pupil in high schools—the ultimate program to be \$45 per elementary pupil). This will require approximately \$400,000 and will affect 20% of the pupils in the poorest schools. This would mean better buildings, more adequate textbooks and library books, teaching supplies and better trained teachers. (The ultimate program for high schools to be \$76 per pupil.)

2. Restoring of State Aid to 1930 level. This would require \$402,000.

3. For the Intermediate group between the low level and high level schools 25% of what they will ultimately receive. \$400,000 required. The program calls for \$1,200,000 to be derived from other than the property tax to increase State Aid. More than \$1,000,000 of this amount could be used for property relief if communities desired. The remainder would secure the minimum program \$27 level.

Some of the economies recommended by the commission for certain communities were:

1. Elimination of small classes in certain subjects.

TOWN OF STANDISH

2. Removal of the requirement that five-year-old children be accepted in the schools.

3. Economy in insuring school buildings.

4. Economy in conveyance.

5. Consolidation of schools.

This program would allocate approximately \$2,000 in new additional aid for Town of Standish.

SEBAGO LAKE SCHOOL ANNEX

Permission had been given by the State Department to use the church vestry for the primary school as a temporary measure. It seemed necessary to construct a suitable building for grades 1 and 2 in view of the increased enrollment, which it seemed would be permanent, for the vestry was unsatisfactory in view of the standards required by the State, especially in regard to ventilation and light. We were unable to finance the construction of this building through any help received from CWA, PWA, or FERA funds. So a special town meeting was called on July 7th and \$1,500 was voted, in addition to the \$2,000 raised at annual town meeting for the purpose of building an annex to the Sebago Lake elementary building; and \$3,500 was voted for the purpose of installing suitable heating, lighting and plumbing systems in the Sebago Lake elementary school building, making a total of \$7,000 for construction and remodelling. A building committee was chosen, consisting of the Superintending School Committee, Mr. Delmont Hawkes, and Mr. Wilbert Libby. Mr. Delmont Hawkes was elected chairman of the building committee. It was decided to build the building by day's work rather than by contract; to give local employment, and to cut the cost of building. Mr. Wilbert Libby had charge of the work, and Mr. Roy Boulter was appointed foreman to have charge of erection of building. The lumber for the frame was cut on one of the town lots. The size of the annex (outside measurements) was 31 ft. 4 in. x 22 ft., with a 12 ft. ceiling. The material for plumbing and heating was furnished by W. L. Blake & Co.

The old boiler from the high school building was used for the heating system. This boiler was found to be in excellent condition. This system will be a great improvement over heating by furnaces where the

ANNUAL REPORT

rooms were made dingy and walls and ceilings covered with smoke from burning soft coal. A septic tank with laterals was installed for sewage disposal. It was in compliance with the requirements of the State Department that modern plumbing and an electric pump were installed. This is a requirement for three-room buildings. This modern system is a great improvement over the old Kaustine System, which was very unsatisfactory and could not have been used another year.

The walls and ceiling of the interior of the building were finished with Boston Steel metal in attractive colors. Steel walls are very satisfactory in durability and in appearance. They were painted with a flat paint in light colors, and a soft diffused light is secured from one side, so that glare light is eliminated. Draper adjustable shades of duck cloth were purchased. These shades are not easily damaged, and should last for years. Heyward Wakefield seats and desks were purchased. They are finished in the dark walnut color which conserves the eyesight by eliminating glare. Slate blackboards were purchased. Slate is much more satisfactory and durable than any other material used for blackboards, although it is much more expensive than hyloplate. Considerable repair and remodelling was necessary on the old building. The outside of this building was greatly in need of painting. It is a matter of satisfaction to the teachers to have the building electric lighted to conserve the eyesight of the pupils on dark days. All of these improvements in plumbing and heating help to safeguard the health of the pupils.

We have appreciated the excellent coöperation and assistance which we have received from the building committee which made it possible to build this building with all modern equipment at such a low cost.

CWA funds were most helpful last year in saving money on the repairs account and in getting some useful work done, such as painting the interiors of school buildings, digging wells on school grounds, grading school lots and graveling driveways on school grounds, and shingling school buildings. We appreciate having these funds used for school purposes.

An appropriation should be made another year for the purpose of laying a new gymnasium floor. The supporting floor timbers have deteriorated as the

ANNUAL REPORT

result of lack of ventilation and the moisture under the building. The same situation has occurred in other buildings in the State. It has been found difficult to ventilate the space under the buildings and secure a system of drainage that would keep the floor timbers dry.

It seemed desirable to take advantage of the special reduction on typewriters to schools of \$10 with a net cost of \$60 a machine with a good trade-in value on the old machines. One L. C. Smith, one Underwood, and one Royal were purchased; at the same time the other machines were put in good condition of repair.

Respectfully submitted,

GEORGE E. JACK,
Superintendent of Schools.

TOWN OF STANDISH

WARRANT FOR TOWN MEETING

MARCH 4, 1935

To Fred E. Cole, a Constable of the Town of Standish, County of Cumberland, State of Maine, GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to assemble at the Town House in said town on Monday, the fourth day of March next, at ten oclock in the forenoon, to act upon the following articles, to wit:

Art. 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the town will vote to have one or more road commissioners for the ensuing year.

Art. 3. To choose all necessary town officers for the ensuing year.

Art. 4. To see if the town will vote to accept the report of the municipal officers for the year 1934-1935

Art. 5. To raise money for treasurer's fees. *\$120.*

Art. 6. To raise money for constable's fees. *\$25.*

Art. 7. To vote Collector's fees, *17 1/2 5. advice*

Art. 8. To see what sum the town will vote to pay the superintending school committee for the ensuing year. *\$5000.*

Art. 9. To see what sum the town will vote to pay the selectmen, assessors and overseers of the poor for the ensuing year. *\$5000.*

Art. 10. To see what sum of money the town will vote to raise for the support of the common schools for the ensuing year. *\$9000.*

Art. 11. To see what sum of money the town will vote to raise for support of the high school. *\$5000.*

Art. 12. To see what sum of money the town will vote to raise for repairs and insurance of school buildings. *\$2700.*

TOWN OF STANDISH

Art. 13. To see what sum of money the town will vote to raise for textbooks and supplies for the schools. *\$1100*

Art. 14. To see what sum of money the town will vote to raise for the support of the poor for the ensuing year. *\$5500*

Art. 15. To see what action the town will take regarding the town farm for the ensuing year, *Select men*

Art. 16. To see what sum of money the town will vote to raise for town officers bills for the ensuing year, *\$2500*

Art. 17. To see what sum of money the town will vote to raise for contingent expenses for the ensuing year. *\$200*

Art. 18. To see what sum of money the town will vote to raise for musical instruction in the schools. *\$500*

Art. 19. To see what sum of money the town will vote to raise for interest on town notes. *\$500*

Art. 20. To see if the town will vote to raise the sum of \$93.60 to pay one years interest on the Standish School Fund notes. *yes*

Art. 21. To see if the town will vote to raise the sum of \$1,860.00 to pay the trail note. *yes \$1860*

Art. 22. To see if the town will vote to raise a sum of money for maintenance patrol roads, *\$1250*

Art. 23. To see what sum of money the town will vote to raise for the repair of highways, and fix the price of labor thereon. *\$396, \$6000*

Art. 24. To see if the town will vote to raise a sum of money for oiling town roads. *\$1200*

Art. 25. To see if the town will vote "Yes" or "No" on the question of appropriating and raising money necessary to entitle the town to State Aid, as provided in Section 20, Chapter 28, Revised Statutes of 1930. *yes*

TOWN OF STANDISH

Art. 26. To see what sum the town will appropriate and raise for the improvement of the section of State aid road as outlined in the report of the State Highway Commission (in addition to the amounts regularly raised for the care of ways, highways and bridges) under the provisions of Section 19, Chapter 28 Revised Statutes of 1930, or under the provisions of Sec. 3, Chapter 175, P. L. of 1933.

Art. 27. To see if the town will vote to raise the sum of money necessary to entitle the town to State Aid under article 26, by assessment or by town notes.

Art. 28. To see if the town will vote to raise the sum of \$1,241.00 for maintenance of third class roads.

Art. 29. To see if the town will vote to raise a sum of money for chemical maintenance for the ensuing year.

Art. 30. To see what sum of money the town will vote to raise for abatements for the ensuing year.

Art. 31. To see if the town will vote to raise a sum of money for repair of bridges.

Art. 32. To see if the town will vote to raise money for Mother's aid.

Art. 33. To see if the town will vote to raise a sum of money for the use of the Charles A. Warren Post Patriotic Assn., to be used for the proper observance of Memorial Day and the decoration of the graves of deceased Soldiers and Sailors.

Art. 34. To see if the town will vote to raise a sum of money for street lights for the ensuing year.

Art. 35. To see if the town will vote to raise a sum of money for public nurse.

Art. 36. To see if the town will vote to raise a sum of money for the control of the white pine blister rust.

Art. 37. To see if the town will vote to allow a discount on taxes paid before a certain date, or charge interest and fix the rate of interest thereon on taxes due after a cer-

ANNUAL REPORT

tain date, and set a date at which time all taxes will be due and payable. 267

Art. 38. To see if the town will vote to instruct the selectmen and treasurer to make temporary loans pending the collection of taxes. 400

Art. 39 To see what action the town will take regarding the removal of snow and ice for the winter of 1935-36.

Art. 40. To see what action the town will take regarding the payment State Aid road notes issued for the construction of State Aid road built in 1932, and raise money for the same. 10

Art. 41. To see if the town will vote to raise a sum of money to be used to repair the so called "Harmon's Beach Road." 200

Art. 42. To see if the town will vote to refund the the taxes paid on a certain piece of land by Albert J. Harmon and raise money for the same. 21

Art. 43. To see if the town will vote to raise and appropriate the sum of \$150.00 to be used in the observance of the one hundred and fiftieth anniversary of the incorporation of the town of Standish. [By request] 150

Art. 44. To see if the town will vote to raise the sum of \$100.00 to pay the balance due on the fire whistle at Standish Village. 100

Art. 45. To see what action the town will take as to instructing the assessors to equalize tax values; as to choosing a committee to cooperate and assist the assessors in such equalization; as to fixing the compensation of such committee and to raising money therefor. [By petition of E. A. Chaplin and nine others]

Art. 46. To see if the town will vote to raise a sum of money to purchase a new piece of fire fighting apparatus. 500

TOWN OF STANDISH

Art. 47. To see what action the town will take regarding paying the town notes issued for the building and equipping the annex to Sebago Lake Graded School and raise money for the same.

The selectmen will be in session at their office for the purpose of revising and correcting the list of voters from ten oclock in the forenoon until four oclock in the afternoon on Saturday, March 2, 1935.

Given under our hands this twenty-third day of February, 1935, at Standish.

AUDITOR'S REPORT

CERTIFICATE OF AUDIT

PORTLAND, MAINE, Feb. 15, 1936.

This is to certify that I have audited the accounts of the Selectmen, Treasurer and Collector of Taxes of the Town of Standish for the year ending January 31, 1936, and that the foregoing statements are correct and properly reflect the financial standing of the town as of that date to the best of my knowledge and belief.

Although as will be seen by the foregoing statements, the town has had a slight reduction in surplus this year, the financial condition is still excellent and particularly in its cash position, having increased its cash balance by more than \$2,000.00.

The accounts of the Treasurer and Tax Collector are in excellent condition, all receipts and expenditures having been properly accounted for and the balance due the town is on deposit in the Casco Bank & Trust Co. All tax accounts of previous years have been settled and the balance of uncollected as shown by the balance sheet is represented for the most part by tax deeds of the current year.

Respectfully submitted,

A. W. REEVES,
Public Accountant and Auditor.

TREASURER'S REPORT

SCHOOL REPORT

REPORT OF SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens
of the Town of Standish:*

In the present economic situation with diminishing resources and increased educational costs we are fortunate in being able to continue our schools without any serious reduction of school privileges. Many communities have been unable to pay their teachers and have found it necessary to curtail educational opportunities for their pupils and the schools have suffered serious loss.

On the basis of the present purchasing power of the dollar, school costs are at a lower level than we may have realized. . . . An extract from the State bulletin on school costs is given: TRENDS IN SCHOOL COSTS (Devaluation of the dollar since 1930 not considered) . . . It cannot be denied that there has been an upward trend in school costs during the past twenty years. Three factors are primarily responsible for this increase. The first and greatest factor is, without doubt, the depreciation of the dollar. The second is the increase in length of school year and in attendance. The third is due to improvement of educational services such as textbooks, supplies, equipment, transportation and a greater variety of courses offered in the schools of today.

In 1930 the dollar was worth approximately 63 cents when compared with the worth of the 1914 dollar. In other words, a school service costing approximately \$1.59 in 1930 could have been purchased for a dollar in 1914. Therefore, in reckoning the difference in cost between the program of 1914 and that of 1930 the variation should not be attributed entirely to the increased cost in school services. The per cent of increase chargeable to the fluctuation of the dollar is approximately 48.72. The increase in cost due to mounting enrollments and attendance is 27.30 per cent. Other factors such as textbooks, supplies, equipment, transportation and so on have increased the cost 23.98 per cent.

As the result of school surveys much thought and study has been given to School Methods, Standards and Courses of Study by educators. Many changes have been made and less emphasis is placed on traditional subjects. Much subject matter has been omitted from textbooks to be replaced by material having more value in Everyday Life. Many new subjects have enriched the curriculum, and classical subjects have given place to courses in Industrial Arts, Home Economics and Manual Training, Agriculture and other courses subsidized by State and Federal Aid. Our high schools are no longer regarded as College Preparatory Schools, and our greatest progress has been made in secondary school education. The high school enrollment has increased 2500% in the last forty years. Courses are offered which best fit the needs of the community and the largest number of pupils in the community. The purpose of the public schools is to promote the general welfare.

The importance of the teachers' work is recognized, and today a more thorough training is demanded and a longer period of preparation is required. The normal schools now require three years of training, and this period may be extended to a four years' course with more practice teaching. An economical expenditure of the town's money means not only the securing of competent and well-trained teachers but the training of these teachers after they have become of more value to the community through experience. For teacher needs certain acquired skills in imparting knowledge as well as a knowledge of subject matter. Even in these times with a large number of teachers available, it would seem to be poor policy to pay extremely low wages and lose competent teachers who are hard to replace.

REPAIRS

A considerable amount of repair work was necessary on the Richville building. The walls and ceiling of the interior had become dingy and unsightly from smoke. It was found that a section of the radiator of the furnace had burned out and the smoke was coming into

the classrooms through the heat conduits. The radiator was repaired and the interior painted in attractive colors.

It was found that certain buildings were greatly in need of paint. Three buildings were painted on the outside: Steep Falls, South Standish and Richville.

Upon investigation it was found that the floor timbers under the high school gymnasium had become rotten and weakened by action of fungi due to lack of ventilation and the moisture and heat under the building. It was found necessary to put in all new material and a new floor. The floor timbers were treated with three coats of creosote to prevent the growth of fungi. Four globe ventilators were installed to secure the necessary ventilation under the building to prevent further recurrence of this condition.

Three new typewriters were purchased this year, one new L. C. Smith and two Royal typewriters. The special discount of \$10 in addition to regular discount to schools was received with a good trade in allowance for the old machines, and the other machines were repaired without additional charge. It is possible to save repair bills by securing new machines in place of old worn machines.

The State Department requires high schools to expend at least \$75 a year in purchase of Laboratory equipment, and to expend a minimum of \$75 each year in purchase of library books. In compliance with this requirement library books have been purchased and new equipment added to laboratory.

Other repairs have been: Building a new coal bin for the elementary school building at Sebago Lake, the purchase of new parts for the electric pump in high school building, and covering the flat roof of high school building with asbestos paint, grading the lot at Steep Falls and clearing the elementary school lot at Sebago Lake with ERA funds.

The cost of conveyance has been increased by the law requiring the insurance of motor vehicles used for transportation of pupils. The law is as follows:

Ch. 131. "Sec. 54-a. Motor vehicles carrying passengers for hire shall procure insurance. The Secretary of State shall not register any motor vehicles used for de-

livery or hire, except as provided in section 7 of chapter 66 of the revised statutes, and no person, firm or corporation shall operate or cause to be operated upon any public highway in the State of Maine any such motor vehicle until the owner or owners thereof shall have procured insurance in a sum not less than \$5000, or a bond having a surety company authorized to transact business in this state, or two individuals as sureties thereon, in a like minimum sum, which insurance or bond shall be approved by the Secretary of State and shall indemnify the insured against any legal liability for personal injury, the death of any person, or property damage, which injury, death or damage may result from or have been caused by the operation of the motor vehicle described in contract of insurance or such bond."

We appreciate this excellent support of our schools which provides all of these educational advantages even under the present conditions, in which so many towns have been so severely handicapped and where recovery is a very difficult problem. It is through such support that we may hope for continued progress in education to meet the current rapid changes in our social organization, and that the work of the schools in preparing for social and economic citizenship will increase in effectiveness.

Respectfully submitted,

GEORGE E. JACK,

Superintendent of Schools.

REPORT OF BLISTER RUST CONTROL WORK**FOR 1936, TOWN OF STANDISH, MAINE***To the Board of Selectmen, Town of Standish, Maine:*

Gentlemen:—It is our desire to show by the following report the results accomplished in your town on blister rust control work during 1936.

We are deeply grateful to the selectmen and townspeople for the coöperation given us. Our contacts in your town have been most pleasant.

Work started May 12 and ended September 23.

Number of men employed,	12
-------------------------	----

Number of acres covered,	6,025
--------------------------	-------

Number of wild currant and gooseberry bushes pulled,	112,569
---	---------

Number of cultivated currant and gooseberry bushes pulled,	7
Amount of W. P. A. funds for labor,	\$3,010.10
Amount of W. P. A. funds for transportation,	\$78.00
Amount of W. P. A. funds for equipment,	\$4.29
Total amount spent,	\$3,092.39
Average cost per acre,	\$.51
Average bushes per acre,	19
Laborers received per month,	\$52.48
Foremen received per month,	\$72.52

We were fortunate in having sufficient W. P. A. funds to conduct the control work throughout the entire season. Therefore, it was not necessary to spend any of the town funds during 1936. We will in all probability need this appropriation to carry on the work this year, especially after July 1. In consideration of the above W. P. A. work, we earnestly desire that you will hold over the town appropriation of 1936 or make available a similar amount for control work in your town this year.

Very truly yours,

(Signed) G. H. KIMBALL,

Chief Scientific Aid, Plant Disease Control.

AUDITOR'S REPORT

CERTIFICATE OF AUDIT

PORTLAND, MAINE, Feb. 12, 1937.

This is to certify that I have audited the accounts of the selectmen, treasurer and collector of taxes of the Town of Standish for the year ending January 30, 1937, and that the foregoing statements are correct as of that date to the best of my knowledge and belief.

As will be seen by the foregoing statements the surplus of last year which was \$7,120.29 has been used by the town this year and at the end of the year 1936-37 a net town debt of \$2,829.80 is shown.

In view of the fact that due to flood damage and other unforeseen reasons it was necessary to authorize the town officers to borrow \$1,700.00 on town notes which were a direct charge to surplus, and in addition to this amount \$4,500.00 was appropriated from surplus for new fire equipment, \$2,500.00 of this amount being for payment of fire equipment notes and \$2,000.00 being an additional appropriation, together with the fact that the town officers were instructed by a special vote at town meeting to write off all tax deeds which might be considered of doubtful value by a Special Committee appointed to inspect tax deeds held by the town, I wish to state that the financial condition of the town at the end of the year 1936-37 is indeed remarkable and the town officers are to be congratulated on the showing made during the past year.

It should also be brought to the attention of the citizens that the cash position of the town at the end of the year is excellent, there being a cash balance of \$10,434.60.

The accounts of the treasurer and tax collector are in excellent condition, all receipts and expenditures having been properly accounted for and the balance due the town is on deposit in the Casco Bank & Trust Co. All tax accounts of previous years have been settled and the balance uncollected as shown by the balance sheet is represented for the most part by tax deeds of the current year.

Respectfully submitted,

A. W. REEVES,

Public Accountant and Auditor.

Town Treasurer.

SCHOOL REPORT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of the Town of Standish:

The annual report is herewith submitted:

Much has been accomplished in the last few years for Educational Progress in the schools. The curriculum has been enriched by new subject matter. The requirements for teacher certification have been increased, educational standards raised and better housing secured. Yet in many communities adequate support of schools has been lacking. A new school finance bill has been formulated by the Maine Teachers' Association and the Maine Superintendents' Association for the purpose of securing increased support for the schools and Property Tax Relief and increased equalization funds for distressed communities. The amount of the State School Fund allocated to each community would be greatly increased by this measure—if passed by Legislature.

1. The new bill would provide the establishment of a minimum expenditure per unit of instruction of \$783 in Elementary Schools, \$1,305 in Secondary Schools—one-half of this amount to be paid by the State. (A unit of instruction is a full-time teacher.)

2. Reimbursement of one-half of the cost of transportation of Elementary and Secondary pupils NOT TO EXCEED \$30 per year per pupil. This plan would aid consolidation and encourage Secondary School conveyance.

3. Relieve the municipalities by a reduction in local appropriations with resulting reduction in property tax.

In 1934 Standish was allocated \$2,968 State School Fund. On the basis of 1934 returns, Standish would receive \$8,398 (if this bill becomes a law).

We regret losing two of our experienced high school teachers. A short time before the opening of the fall term, Miss Hazel Ingalls resigned to accept a more attractive position with an increase in salary, and Miss

Adelaide Coombs resigned to take up graduate work at Smith College. A shortage of teachers existed at this time and it was impossible to secure experienced teachers for these positions. Increased financial support for our schools will make it possible for small communities to retain their experienced teachers. Miss Kathleen Torsey and Miss Constance Murray, Bates graduates, well trained for their respective positions, were secured to fill these vacancies.

REPAIRS

A large amount of satisfactory repair work has been accomplished this year. A large part of this work was renovating and painting the high school building. This repair work was urgently needed. The outside of this building was painted two coats and presents a greatly improved appearance. The interior of this building was greatly in need of repair. The plastering on walls and ceiling was broken and falling in many places, and very unsightly. Steel walls and ceiling of attractive design have been put up throughout the building. The steel has been painted in light attractive colors, and the glare has been eliminated and much better lighting conditions secured through the properly diffused light. (A large saving on contract price was obtained by purchase of steel of Boston Metal Co. and by employing local carpenters.)

A new Underwood typewriter was purchased for the commercial department in exchange for an old machine.

It was found to be necessary to remove the old Kaustine chemical system at Steep Falls. These systems have never proved very satisfactory. It was decided to install flush closets and a modern plumbing system in order to properly safeguard the health of school children according to modern standards. This could be done in this building without the cost of installing an electric pump or a pressure tank. This plan was approved by the State Department of Health. A large septic tank was constructed for sewage disposal, and a sewage field was constructed with laterals.

PHYSICAL EXAMINATIONS AND PHYSICAL EDUCATION

It was a very constructive educational step in the

line of preventive health work to have complete physical examinations given by Dr. E. A. Center, the school physician. Such an examination will enable the parents to obtain remedial treatment and corrections in cases where physical defects and diseases are discovered. Dr. Center has devoted a large amount of time to this work, and a very thorough and complete examination has been given. The follow-up work from year to year in checking these cases will be of great value to the individual and community.

Health training is very important because it affords untold possibilities for establishing lifelong habits for health in each individual child. It reaches out to the home and community. Health training is too important to leave to incidental work. It has a definite place in our course of study. The care of health and the physical welfare of pupils should be a matter of first importance in our schools. This program should include lessons on "Safety on Highways." Great care concerning proper ventilation and heating should be exercised in each room to conserve the health of the children.

We have appreciated the continued support of our schools and the appropriations which have made it possible to restore some part of the salaries lost through reduction of pay, and the appropriation for the important work of the school physician, and the coöperation of teachers.

Respectfully submitted,

GEORGE E. JACK,

Superintendent of Schools.

WARRANT FOR TOWN MEETING

MARCH 1, 1937

*To Fred E. Cole, a Constable of the Town of Standish,
County of Cumberland, State of Maine,*

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said town, qualified by law to vote in town affairs, to assemble at the Town House in said town on Monday, the first day of March next, at ten o'clock in the forenoon, to act upon the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To see if the town will vote to have one or more road commissioners for the ensuing year.

Art. 3. To choose all necessary town officers for the ensuing year.

Art. 4. To see if the town will vote to accept the report of the municipal officers for the year 1936-1937.

Art. 5. To raise money for treasurer's fees. 1.25

Art. 6. To raise money for constable's fees. 2.25

Art. 7. To vote collector's fees. 1.75

Art. 8. To see what sum the town will vote to pay the superintending school committee for the ensuing year. 50

Art. 9. To see what sum the town will vote to pay the selectmen, assessors and overseers of the poor for the ensuing year. 50

Art. 10. To see what sum of money the town will vote to raise for the support of common schools for the ensuing year. 9.00

Art. 11. To see what sum of money the town will vote to raise for the support of the high school for the ensuing year. 5.10

Art. 12. To see what sum of money the town will vote to raise for repairs and insurance of school buildings. 28.00

Art. 13. To see what sum of money the town will vote to raise for textbooks and supplies for the schools. 12.50

Art. 14. To see what sum of money the town will vote to raise for the support of the poor for the ensuing year.

Art. 15. To see what action the town will take regarding the town farm for the ensuing year.

Art. 16. To see what sum of money the town will vote to raise for town officers' bills for the ensuing year.

Art. 17. To see what sum of money the town will vote to raise for contingent expenses for the ensuing year.

Art. 18. To see what sum of money the town will vote to raise for musical instruction in the schools.

Art. 19. To see what sum of money the town will vote to raise for interest on town notes.

Art. 20. To see if the town will vote to raise the sum of \$93.60 to pay one year's interest on the school fund notes.

Art. 21. To see if the town will vote "yes" or "no" on the question of appropriating and raising money necessary to entitle the town to State aid, as provided in Section 20, Chapter 28, Revised Statutes of 1930.

Art. 22. To see if the town will vote to raise the sum of \$1,860.00 for State aid road construction.

Art. 23. To see what action the town will take regarding the removal of snow and ice on town roads for the winter of 1937-1938.

Art. 24. To see if the town will vote to raise the sum of \$1,144.09 for maintenance of third class roads.

Art. 25. To see if the town will vote to raise a sum of money for the repair of bridges.

Art. 26. To see if the town will vote to raise a sum of money to pay the cost of material and equipment of WPA Project on White's Bridge road.

Art. 27. To see if the town will vote to raise a sum of money for maintenance patrol roads.

Art. 28. To see if the town will vote to raise a sum of money for tarring town roads.

Art. 29. To see what sum of money the town will vote to raise for the repair of highways, and fix the price of labor thereon.

Art. 30. To see if the town will vote to authorize the school committee to appoint a school physician, and raise money for same.

Art. 31. To see if the town will vote to raise a sum of money for a public nurse.

Art. 32. To see if the town will vote to raise money for mothers' aid.

Art. 33. To see if the town will vote to raise a sum of money for maintenance and expense of the fire department for the ensuing year.

Art. 34. To see if the town will vote to instruct the selectmen and treasurer to make temporary loans pending the collection of taxes.

Art. 35. To see if the town will vote to raise a sum of money for abatements for the ensuing year.

Art. 36. To see if the town will vote to raise a sum of money for street lights for the ensuing year.

Art. 37. To see if the town will vote to raise a sum of money for the use of the Charles A. Warren Post Patriotic Association, to be used for the proper observance of Memorial Day and the decoration of the graves of deceased soldiers and sailors.

Art. 38. To see if the town will vote to raise a sum of money for the use of the Berdan J. Kennison Post, No. 128, American Legion.

Art. 39. To see if the town will vote to allow a discount on taxes paid before a certain date, or charge interest and fix the rate of interest thereon on taxes due after a certain date, and set a date at which all taxes will be due and payable.

Art. 40. To see if the town will vote to accept the offer of S. D. Warren Company to assume and pay the town's share of the cost of construction of the new bridge over the Cumberland and Oxford Canal, so-called, on State Highway No. 35, and authorize the selectmen to execute and deliver to said S. D. Warren Company in the name of and on behalf of the town, a good and sufficient release from all responsibility for the cost of maintenance and reconstruction of said bridge occurring after completion of the present construction.

Art. 41. To see if the town will vote to appoint a committee to act with the selectmen regarding the building of a new town hall, and raise a sum of money for architectural plans, etc.

Art. 42. To see what sum of money the town will vote to raise for new hose and other necessary equipment for the fire department.

Art. 43. To see if the town will vote to authorize the selectmen to dispose of the two chemicals, if in their judgment it seems advisable.

Art. 44. To see what action the town will take regarding blister rust control work, and raise money for same. 150.

Art. 45. To see if the town will vote to raise money to install and maintain traffic lights for the Town of Standish. (Article by request.)

Art. 46. To see what action the town will take in regard to installing lights on the Canal Bridge, and raise money for same. 161.

Art. 47. To see what action the town will vote to take regarding Bonny Eagle Bridge, and to raise money for same. 3007

Art. 48. To see if the town will vote to authorize the selectmen to appoint a budget committee, and to raise money for same. 3048.07
55648.07

Art. 49. To see if the town will vote to raise a sum of money not to exceed \$500.00 for the remodelling of the Limington Bridge Schoolhouse and outbuildings. (On petition of Ellis F. Weeman and fifty others.)

Art. 50. To see if the town will vote to authorize the superintending school committee to discontinue the Elmwood School, if in their judgment it seems advisable.

Art. 51. To see if the town will vote to refund the taxes on certain pieces of land, paid by Mrs. Margaret Roberts, estate of Harry F. Roberts, and raise money for the same. 12641

Art. 52. To see if the town will vote to raise the sum of \$300.00 to be expended, in addition to general repairs, on road leading from Trail No. 114 to residence of George H. Harmon, said amount of money to be expended on hill near the residence of said George H. Harmon. (By request of George H. Harmon and others.)

Art. 53. To see what sum of money, if any, the town will raise to procure the writing and publication of a history of the town. (By request of H. H. Sturgis.)

Art. 54. To see if the Town will authorize the selectmen and the Executors of the Alpheus Harmon Estate to appoint one or more Trustees for said Estate.

Art. 55. To see if the town will vote to raise a sum of money to re-shingle the Town Hall.

Art. 56. To see if the Town will vote to instruct its Officers to carry on Town Business on a Daylight Saving Schedule, as in 1936.

Art. 57. To see if the Town will vote to raise a sum of money to purchase a suitable lot and erect a building thereon, to house the Standish Village Fire Equipment. (By request of Howard K. Dow and 23 others.)

Art. 58. To see if the town will vote to vote to adopt the secret method of electing Town Officers at the next annual Town Meeting, as provided in Sec. 38-52 of Chap. 5, Revised Statutes of 1930. [Request of Fred E. Cole.]

Art. 59. To see if the Town will vote to raise a sum of money for W. P. A. Projects. \$1000

Art. 60. To see if the Town will vote to raise a sum of money for the payment of Town Notes. ~~15000~~

The selectmen will be in session at their office for the purpose of revising and correcting the list of voters from ten oclock in the forenoon until four oclock in the afternoon on Saturday, February 27, 1937.

Given under our hands this 20 day of February, 1937, at Standish.

J. T. J. PARKER
WALTER W. SMITH
RALPH C. HOSMER

SCHOOL REPORT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of the Town of Standish:

The annual report is herewith submitted:

The Education Bill presented before the last regular session of legislature failed to become a law. However, at the special session held in October the State equalization fund was increased by \$200,000. This measure provides assistance for the poorer communities, where adequate support for the schools is no longer possible, notwithstanding a school rate and a municipal rate higher than the average for the State. This year the average of school rates is .01243; the average of municipal rates is .05736. The school rate for Standish is .00821; the municipal rate is .041.

The towns in this union are in such good financial condition that they will not receive any assistance from school equalization. The largest amounts will be paid towns with the greatest financial need.

The law in regard to allocation of equalization is as follows: Available equalization shall be apportioned to towns wherein a rate of taxation considerably in excess of the average rate for the State fails to produce a school revenue sufficient to secure a reasonable standard of educational efficiency and no town shall receive an apportionment unless its municipal tax rate shall be in excess of a rate which is 3 mills less than the average of for all the towns of the State. The principle is considered right—to aid the towns in the greatest financial difficulty. Yet we fail to receive any help in maintaining a minimum program. It is hoped that increased support for all schools will be secured at the next session of legislature.

REPAIRS

It was found to be necessary to change the location of the toilets in the Steep Falls building. Owing to the location and installation in the basement, sufficient pitch for drainage had not been obtained. Much trouble had been experienced as the result.

The toilets have been placed on the first floor and

part of the entry space has been used for this purpose. All this additional work was done in a very satisfactory manner and there should be no further trouble or expense from that source. The pitch for drainage to the septic tank is now adequate. This tank is of sufficient size to take care of the school without any attention over many years or extra cost. A large end well beyond the septic tank was dug and the drainage ditch was partly filled with rocks to aid in leaching and sewage disposal. A reserve water storage tank was installed in the basement and a pressure pump to furnish an adequate supply of water. The work was done in a very satisfactory manner. The system is now working perfectly.

The Limington Bridge building was remodelled to comply with the law by attaching suitable outbuildings with separate compartments. This building was painted on the outside and papered and painted on the inside.

The following buildings were wired for electric lights: Steep Falls, Richville, Albion Howe, Harding, Limington Bridge, and South Standish.

All of our buildings are now lighted with electric lights. In some of these buildings in the fall term and on dark days, the light was very inadequate. And it is a matter of satisfaction to have these buildings properly lighted. Now that we have the lights we realize how much they were needed and how much eyestrain is saved, especially at South Standish and at the Harding Schools. One of the most important requirements in our schools is proper lighting conditions. Insufficient light means eyestrain and a handicap to study and good work.

The old furnace at the Albion Howe School was examined and it was found that the fire box was burned out and the linings burned to the extent that it was unsafe to burn coal and the furnace was burned out beyond repair. It was decided that it would be expensive and difficult to repair this furnace so that it would heat efficiently and new parts would make a temporary repair at considerable cost. Therefore, it was decided to install a new furnace. A new Mueller furnace was installed by the Portland Stove Foundry Co. In this furnace the fire box is protected in burning soft coal

by a lining of fire brick. It is also protected by a special radiator which heats very effectively.

The work of putting up the rest of the steel ceiling was completed in the commercial room and in the book room. A new steel filing case and supply closets were purchased. Records and school supplies are of so much importance that suitable equipment for this material is a wise provision and a great convenience in filing. The new mimeograph which was purchased for the High School enables the students to do excellent work. They get out the school paper with considerable financial saving and have the training of doing this work themselves. The type is clear and legible. This work is a help and a saving in the expense of providing supplementary material for the different courses in the High School. Modern, up-to-date equipment is a help in all educational work. And it is an incentive for better work. A new Royal typewriter was purchased for the Commercial Department.

HIGH SCHOOL LABORATORY

We have a splendid High School building with many modern facilities. But we still need a better chemical laboratory. Our present laboratory does not provide sufficient space and it is impossible to ventilate this room. There should be a ventilating hood in which experiments with dangerous and poisonous fumes could be performed. As it is now, the concentration from chlorine and other chemicals reaches a dangerous point during the double period of laboratory work. And it is difficult to remove the fumes by window ventilation. This is a serious hazard and some change in location should be made at once to avoid any injury to the health of students.

This year, again, we have lost two of our High School teachers. It is a handicap to good work to change teachers frequently and employ untrained teachers. After these teachers have secured the necessary experience to qualify them for a better position they leave us for higher salaries. It would seem wise to increase the High School appropriation sufficiently to enable us to offer a slight increase in salary and retain these teachers. We have been very fortunate in retaining our Elementary School teachers. These teachers are doing excellent work and have the train-

ing and experience to qualify them for better salaries. There is an actual shortage of Elementary teachers today. The wages have not been sufficiently attractive to draw a large number into a three-years' training course in Normal School.

The town of Standish has given excellent support to our schools for many years with liberal appropriations for all departments. While many towns have found it necessary to cut down in support of schools, we have been favored in our resources, and have made some definite progress and achievement each year. Some of our most important attainments have been: a course in music, the building of the High School gymnasium for physical education, electric lights in our buildings, all of our buildings standardized and all in an excellent condition of repair and upkeep. One of our most important achievements is the complete physical examination given by the school physician. The physical welfare of the pupils is our most important consideration. We appreciate the coöperation and support which has made all of these accomplishments possible, and enabled us to employ our highly efficient teaching force.

Respectfully submitted,

GEORGE E. JACK,

Superintendent of Schools.

REPORT OF BLISTER RUST CONTROL WORK

To the Board of Selectmen, Standish, Maine:

GENTLEMEN:

In submitting the following report, we wish to show the results accomplished in your town on blister rust control work during 1937.

It has been a pleasure to have the splendid coöperation of the selectmen and citizens in our efforts to control this disease.

Work was done during August and September.

Number of men employed,	5
Number of acres covered,	405

Number of wild currant and gooseberry bushes pulled,	4,255
Amount of town funds for labor,	\$149.53
Amount of State funds for labor,	74.77

Total amount spent,	\$224.30
---------------------	----------

Average cost per acre, \$.55.

Average bushes per acre, 11.

Town laborers received the usual town wages.

As this year we completed the remainder of the town, there will be no need of further control work for the next four or five years.

On behalf of the U. S. Department of Agriculture and Maine Forest Service, I wish to express our appreciation of your past coöperation in blister rust control work, and will be glad to assist you at any time in the future.

Very truly yours,

G. H. KIMBALL,

*Chief Scientific Aid,
Plant Disease Control.*

AUDITOR'S REPORT

CERTIFICATE OF AUDIT

Portland, Maine, February 15, 1938.

To the Board of Selectmen, Standish, Maine:

GENTLEMEN:

This is to certify that I have audited the accounts of the selectmen, treasurer and collector of taxes of the Town of Standish for the year ending January 30, 1938, and that the foregoing statements are correct as of that date to the best of my knowledge and belief.

As will be seen by the foregoing statements, the net town debt of last year, which was \$2,829.80, has been wiped out, and at the end of this year a surplus of \$5,355.03 is shown. This has been due to the fact that notes amounting to \$5,000.00 have been paid by appropriation and the net unexpended balances in accounts amounting to \$4,744.83 have been credited to surplus. It will also be noted that the ministerial and school fund, amounting to \$1,560.00, has been set up in the balance sheet as a liability.

Much credit is due the selectmen for keeping within their appropriations and in many cases showing large and unexpended balances. The town is in excellent financial condition, having a cash balance of \$10,125.27, and a reduction in notes payable amounting to \$5,000.00.

The accounts of the treasurer and tax collector are in excellent condition, all receipts and expenditures have been properly accounted for, and the balance due the town is on deposit in the Casco Bank & Trust Company.

All tax accounts of the previous year have been settled and the balance shown by the balance sheet is represented by tax deeds of the current year.

Respectfully submitted,

A. W. REEVES,

Public Accountant and Auditor.

WARRANT FOR TOWN MEETING

MARCH 7, 1938

*To Fred E. Cole, a Constable of the Town of Standish,
County of Cumberland, State of Maine,*

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Standish, in said county, qualified by law to vote in town affairs, to meet at Standish town hall, in said town, on Monday, the seventh day of March, A. D. 1938, at eight o'clock in the forenoon, to act on the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To choose all necessary town officers for the ensuing year.

Art. 3. To see if the town will vote to accept the report of the municipal officers for the year 1937-1938.

Art. 4. To see if the town will vote to pay the collector 1%, more or less, for collecting taxes, and 5%, more or less, for collecting excise taxes.

Art. 5. To see if the town will vote to raise and appropriate a sum of money for treasurer's fees.

Art. 6. To see if the town will vote to raise and appropriate a sum of money for constable's fees.

Art. 7. To see what sum of money the town will vote to raise and appropriate for the support of common schools for the ensuing year.

Art. 8. To see what sum of money the town will vote to raise and appropriate for the high school for the ensuing year.

Art. 9. To see what sum of money the town will vote to raise and appropriate for repairs and insurance of school buildings for the ensuing year.

Art. 10. To see what sum of money the town will vote to raise and appropriate for textbooks and supplies for the schools.

Art. 11. To see what sum of money the town will vote to raise and appropriate for the support of the poor for the ensuing year.

Art. 12. To see what sum of money the town will vote to raise and appropriate for town officers' bills

for the ensuing year. 2800

Art. 13. To see what sum of money the town will vote to raise and appropriate for contingent expenses for the ensuing year. 2000

Art. 14. To see what sum of money the town will vote to raise and appropriate for musical instruction in the schools. 476.9

Art. 15. To see what sum of money the town will vote to raise and appropriate for the payment of interest on town notes. 458.

Art. 16. To see if the town will vote to raise and appropriate the sum of \$93.60 to pay one year's interest on school fund note. 93.60

Art. 17. To see what sum the town will vote to appropriate for State aid road construction (in addition to amounts regularly raised for the care of ways, highways or bridges), under the provisions of Section 19, Chapter 28, Revised Statutes of 1930, or under the provisions of Section 3, Chapter 229, Public Laws of 1937. 1395

Art. 18. To see if the town will vote to raise and appropriate the sum of \$1,244.00 for maintenance of third class roads. 1244

Art. 19. To see what sum of money the town will vote to raise and appropriate for the repair of bridges for the ensuing year. 150.

Art. 20. To see what sum of money the town will vote to raise and appropriate for the maintenance of patrol roads. 1500

Art. 21. To see what sum of money the town will vote to raise and appropriate for the tarring of town roads for the ensuing year. 1400

Art. 22. To see what sum of money the town will vote to raise and appropriate for the repair of highways, and fix the price of labor thereon. 2500

Art. 23. To see if the town will vote to authorize the school committee to appoint a school physician for the ensuing year and to raise and appropriate a sum of money for the same. 500

Art. 24. To see what sum of money the town will vote to raise and appropriate for mothers' aid for the ensuing year. 918.

Art. 25. To see what sum of money the town will vote to raise and appropriate for the maintenance of

fire department for the ensuing year. 2000.

Art. 26. To see what sum of money the town will vote to raise and appropriate for abatements for the ensuing year. 150.

Art. 27. To see what sum of money the town will vote to raise and appropriate for street lights for the ensuing year. 550.

Art. 28. To see if the town will vote to raise and appropriate a sum of money for the use of the Charles A. Warren Post Patriotic Association. 25.00

Art. 29. To see if the town will vote to raise and appropriate a sum of money for the use of the Berden J. Kennison Post, American Legion. 25.00

Art. 30. To see if the town will vote to raise and appropriate a sum of money to reshingle the town hall. 200.

Art. 31. To see what sum of money the town will vote to raise and appropriate for the payment of town notes. 3000.

Art. 32. To see if the town will vote to raise the sum of \$300.00, to be spent in addition to general repairs, with special attention to culverts, on repairs to the section of road between the Milton Brown road (so-called) and the road leading to the Garden of Eden. (Article by petition.) 300.

Art. 33. To see if the town will vote to raise the sum of \$300.00, to be expended, in addition to general repairs, on road leading from Trail No. 35 by residence of Ralph W. E. Shaw to the Gorham line. Said money to be expended by the road commissioner, with special attention paid to culverts. (Article by petition.) 4300.

Art. 34. To see if the town will vote to raise the sum of \$500.00, to be expended, in addition to general repairs, for repairs to the Middle Road (so-called) leading from Route No. 114 at Richville to Route No. 113 at Steep Falls. (Article by petition.) 500.

Art. 35. To see if the town will vote to authorize the payment of the Bonny Eagle Bridge bills from the surplus account.

Art. 36. To see if the town will vote to authorize the selectmen to purchase a new road machine from the surplus account.

Art. 37. To see what sum of money the town will vote to pay the selectmen, assessors and overseers of the poor and the superintending school committee for

the ensuing year. 508

Art. 38. To see what action the town will vote to take in regard to conveyance of high school pupils. 1200

Art. 39. To see what action the town will take in regard to the physical and chemical laboratory in the high school building.

Art. 40. To see if the town will vote to authorize the superintending school committee to discontinue the Elmwood School, if in their judgment it seems advisable. Yes

Art. 41. To see if the town will vote to allow a discount on taxes paid before a certain date, or charge interest and fix the rate of interest thereon on taxes due after a certain date, and set a date at which all taxes shall be due and payable.

Art. 42. To see if the town will vote to use the Secret Method of Electing Town Officers for the year of 1939, or to return to the method of electing said town officers as used in previous years.

Art. 43. To see if the town will vote to instruct its municipal officers to carry on town business on a daylight-saving schedule as in 1937.

Art. 44. To see if the town will vote to authorize and instruct the selectmen and treasurer to make temporary loans pending the collection of taxes.

Art. 45. To see what action the town will vote to take regarding the removal of snow and ice on town roads for the winter of 1938-39.

Art. 46. To see what action the town will take regarding the town farm for the ensuing year.

Art. 47. To see if the town will vote to authorize the selectmen to use the unexpended balance from the amount raised under Article 41 in 1937, to be used in improvements to the selectmen's office and the town hall.

Art. 48. To see what action the town will vote to take in regard to the following petition: That the road leading off the main highway and running down to the so-called Harmon's Beach or Harmon's Cove, Sebago Lake, be accepted to the water's edge as a town road. (The above Article by petition.)

Art. 49. To see what action the town will vote to take in regard to closing the winter roads as in years previous to 1937. 10 years

Art. 50. To see if the town will vote to discontinue the old Town Road leading off No. 114 to Varney's Mill, so-called, at Stickey River.

The selectmen hereby give notice that they will be in session at the above-named hall and place of meeting on Saturday, the fifth day of March next, for the purpose of correcting the list of voters, from ten o'clock in the forenoon until four 'clock in the afternoon.

Given under our hands this 26th day of February, A. D. 1938.

WALTER W. SMITH,

RALPH C. HOSMER,

JOHN M. RAND,

Selectmen of Standish.

SCHOOL REPORT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of the Town of Standish:

It has been very satisfactory to note the progress that has been made in providing educational opportunity in the Town of Standish. This year, two very worthwhile objectives were accomplished through the support of the voters: Namely, the building of the high school laboratory and the providing of high school conveyance.

HIGH SCHOOL LABORATORY

A large amount of time was put in by the building committee in determining the location of the building and the type of building to be erected. Thirteen meetings were held. Harold N. Hanold was elected chairman of the building committee and Roy C. Boulter was elected foreman to have oversight of the erection of the building. Several plans for the location and erection of the building were considered. The plan of locating the laboratory in the high school attic did not seem feasible for several reasons. The first and most important consideration was the fire hazard. The law requires two separate exits from a room above the first floor, so the additional cost of another stairway or a fire escape to the ground would have been necessary. Then there would have been the additional expense of heating and piping to the attic with the possibility of frozen pipes; and it was decided that there was not sufficient space elsewhere in the building for a laboratory.

The committee met Mr. R. J. Libby of the State Department of Education and it was decided to locate the laboratory outside of the building. On the recommendation of Mr. Libby it was decided to build a two-story building and provide space in the second story for a possible course in Home Economics for the girls with courses in cooking and sewing, if the town should decide to provide this course at a later date, then such a course could be provided with the small cost of finishing this room. Towns are tending more and more to provide such courses in their schools. Two-thirds

of the cost is subsidized by the State and Federal Government.

Another exit was necessary from the high school auditorium. By building the laboratory in its present location, this need was taken care of in a very satisfactory manner. The old iron fire escape was a real hazard as a means of exit, especially during the winter. It was decided to build this building by day labor and employ town labor and purchase as much material locally as possible. This plan worked out very satisfactorily and an excellent building has been secured. It is well lighted and ventilated with a hood constructed to take care of poisonous fumes.

The laboratory tables were made by L. C. Andrew at a great saving in cost; the cost being estimated at about 25% of factory prices. These tables were covered with composition board painted with acid resistant paint. These tables were equipped with troughs built of extra heavy sheet lead which is very resistant to the action of acids and chemicals. Excellent supply closets were built for the more expensive apparatus. The walls were covered with steel lathing and hard plaster, so this room is well protected from fire hazards.

A very important feature in the new laboratory was the installing of a system of gas burners. The heat for various laboratory needs can be maintained at a uniform temperature and regulated to a very fine degree by these burners. The efficiency of the work has been greatly increased by piping gas into the building. We were enabled to have this modern system by the splendid coöperation of the student body in raising part of the money needed for this purpose.

The walls were painted in a cream color with a flat paint so that a soft diffused light without glare is secured. Draper adjustable shades of duck cloth were purchased. These shades are now used throughout the entire school building. They are of a light, attractive color and the light is properly diffused although the material is strong and durable.

This building has taken care of three things: It has taken the classes out of the old laboratory; provided a safe exit from the building; and given us at a small cost a room to take care of a course in Home Economics or another course to fit the needs of pupils today

according to modern trends in education.

HIGH SCHOOL CONVEYANCE

The cost of conveyance of elementary school pupils had been approximately \$3,000 a year for several years. It seemed desirable to combine elementary and high school conveyance and provide a means for high school students living long distances from the high school building to attend school at a per pupil cost that would not be excessive in view of what was already being paid.

The plan was advanced for conveyance of high school students by appropriating an additional sum of money and employing larger busses to handle this increased conveyance. The sum of \$1,200 was appropriated for this purpose. It was difficult to adjust the time element at first in a few cases. However, after some changes this plan has worked out very satisfactorily. We believe that the drivers are careful and realize their responsibility. The two problems most difficult to adjust have been; the problem of arranging the schedule to permit basketball practice in the high school; and the problem of pupils walking to meet the bus. The parents and pupils have coöperated in a very satisfactory manner in dealing with this situation.

We appreciate the continued support of the schools in providing these additional privileges and educational advantages for the pupils in our schools; and also the adequate appropriations for the other accounts: The repair account which makes possible the upkeep of all buildings; sufficient funds for the employment of an excellent force of teachers in high and elementary schools. These teachers are well supplied with up-to-date working equipment. We are fortunate in having a thorough check-up and physical examination. Many towns do not have this advantage, and many larger communities do not have the complete check-up that is made in Standish schools. In the commercial course a new Royal typewriter with a longer carriage was purchased. This machine gives the pupils practice that is necessary and enables the work on the school paper and other projects to be done much more efficiently. By taking advantage of favorable trade in prices it is possible to keep our machines up-to-date

and actually save on repair bills and keep all machines in good running condition.

The furnace at Richville has been repaired. It was necessary to replace the radiator which was burned out. The building at South Standish has been shingled.

We have added to our high school library by the purchase of a number of new books this year, and purchased new supplies for the laboratory in compliance with State requirements.

We have been fortunate this year in securing a teacher of French who was particularly well prepared for this subject. Miss Isabelle Minard has done graduate work toward a Master's Degree and has had the advantage of study in France in this subject. Whenever possible it is highly desirable to pay a sufficient salary to secure a teacher in each department who has special training for the work.

Respectfully submitted,

GEORGE E. JACK,

Superintendent of Schools.

AUDITOR'S REPORT

10 Congress Sq., Portland, Me.,

Feb. 10, 1939.

To the Board of Selectmen, Standish, Maine:

GENTLEMEN:

This is to certify that we have audited the accounts of the selectmen, treasurer, and collector of taxes of the Town of Standish for the year ending January 31, 1939, and that the financial standing of the town, as shown by the comparative balance sheet, is correct as of that date to the best of our knowledge and belief.

It will be noted in the Reconciliation of Net Debt that the surplus of \$5,355.03 at the end of last year has been changed to a debt of \$4,533.10. This was due to the fact that money was appropriated from surplus for the overdraft on Bonny Eagle Bridge and for the purchase of a new road grader. Also notes amounting to \$10,538.77 were borrowed for the Oak Hill Road, Bonny Eagle Bridge, and the High School Laboratory. The selectmen have kept within their appropriations in most of their accounts and there were enough unexpended balances to cover the overdraft on the White's Bridge Road of \$4,008.37, for which there was no appropriation, thereby making it unnecessary to borrow money for this account.

The treasurer has accounted for all receipts and disbursements and the balance shown as due the town was on deposit at the Casco Bank & Trust Co.

The collector of taxes has accounted for his commitment of \$76,958.52 and supplemental tax of \$248.86, having turned over to the treasurer cash and cash credits amounting to \$75,328.21 and having uncollected taxes amounting to \$1,879.17.

Respectfully submitted,

EDWARD T. SULLIVAN,

Public Accountant and Auditor.

WARRANT FOR TOWN MEETING

MARCH 6, 1939

*To Fred E. Cole, a Constable of the Town of Standish,
County of Cumberland, State of Maine,*

GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of the Town of Standish, in said County, qualified by law to vote in town affairs, to meet at the Standish Town Hall, in said town, on Monday, the sixth day of March, A. D. 1939, at eight o'clock in the forenoon, to act on the following articles, to wit:

Article 1. To choose a moderator to preside at said meeting.

Art. 2. To choose all necessary town officers for the ensuing year.

Art. 3. To see if the town will vote to accept the report of the municipal officers for the year 1938-1939.

Art. 4. ADMINISTRATION: To see what sum of money the town will vote to raise and appropriate for Administration for the ensuing year.

(1. Town officers. The Budget Committee recommends \$2,950.00.)

(2. Treasurer's fees. The Budget Committee recommends \$125.00.)

(3. Constable's fees. The Budget Committee recommends \$25.00.)

(4. Contingent. The Budget Committee recommends \$2,000.00.)

Art. 5. To see what the town will vote to pay for the ensuing year for:

(1. Selectmen, assessors and overseers of poor. 50c per hour.)

(2. Superintending school committee. 50c per hour.)

(3. Collector. 1% on taxes, 5% on excise, as in 1938.)

(4. Truant officer. Passed over by Budget Committee.)

Art. 6. PROTECTION: To see what sum of money the town will vote to raise and appropriate for Protection for the ensuing year.

(1. Fire department. The Budget Committee recommends \$2,500.00.) *yes*

(2. Street lights. The Budget Committee recommends \$1,500.00.) *yes*

(3. Porcupine bounty. The Budget Committee recommends \$25.00.) *yes*

Art. 7. HIGHWAYS AND BRIDGES: To see what sum of money the town will vote to raise and appropriate for highways and bridges for the ensuing year.

(1. Snow and ice removal. Budget Committee recommends \$2,500.00.) *yes*

(2. General repairs. Budget Committee recommends \$4,000.00.) *yes*

(3. To see what sum the town will vote to raise and appropriate for State aid road construction (in addition to amounts regularly raised for the care of ways, highways or bridges), under the provisions of Section 19, Chapter 28, Revised Statutes of 1930, or under the provisions of Section 3, Chapter 229, Public Laws of 1937. Budget Committee recommends \$1,400.00.) *yes*

(4. Maintenance of third class roads. Budget Committee recommends \$1,350.00.) *yes*

(5. Maintenance of patrol roads. Budget Committee recommends \$1,500.00.) *yes*

(6. Tarring town roads. Budget Committee recommends \$1,250.00.) *yes*

(7. Repair of bridges. Budget Committee recommends \$150.00.) *yes*

Art. 8. CHARITIES: To see what sum of money the town will vote to raise and appropriate for the following for the ensuing year:

(1. Poor relief—town. Recommended by Budget Committee, \$6,000.00.) *yes*

(2. Aid to dependent children. Recommended by Budget Committee, \$750.00.) *yes*

(3. Town farm account. Passed over by Budget Committee.)

Art. 9. EDUCATION: To see what sum of money the town will vote to raise and appropriate for Educa-

tion for the ensuing year.

(1. Elementary schools. Recommended by Budget Committee, \$9,500.00.)

(2. Conveyance of high school pupils. Recommended by Budget Committee, \$500.00.)

(3. High school. Recommended by Budget Committee, \$5,600.00.)

(4. Textbooks and supplies. Recommended by Budget Committee, \$1,500.00.)

(5. School repairs and insurance. Recommended by Budget Committee, \$2,500.00.)

(6. Musical instruction in the schools. Recommended by Budget Committee, \$500.00.)

Art. 10. MEMORIAL DAY: To see what sum of money the town will vote to raise and appropriate for Memorial Day for the ensuing year.

(1. Charles A. Warren Post. Recommended by Budget Committee, \$25.00.)

(2. Berdan J. Kennison Post, No. 128, American Legion. Recommended by Budget Committee, \$50.00.)

Art. 11. MISCELLANEOUS ACCOUNTS: To see what sum of money the town will vote to raise and appropriate for the following accounts:

(1. Abatements. Recommended by Budget Committee, \$150.00.)

(2. Payment of interest. Recommended by Budget Committee, \$600.00.)

(3. Payment of town notes. Recommended by Budget Committee, \$5,000.00 or more.)

(4. Town dumps. Recommended by Budget Committee, \$25.00.)

(5. Interest on school fund note. Recommended by Budget Committee, \$93.60.)

Art. 12. To see if the town will vote to raise and appropriate the sum of \$500.00, part of which is to be used for the purchase of the lot and building now owned by Miss Martha Tucker, at Steep Falls, for housing fire equipment at Steep Falls Village, the balance to be used for repairs to said building.

(Recommended by Budget Committee, \$500.00.)

Art. 13. To see if the town will vote to authorize the superintending school committee to appoint a

school physician for the ensuing year, and to raise and appropriate a sum of money for same.

(The Budget Committee recommends \$500.00.) *yes*

Art. 14. To see if the town will vote to accept the Harmon's Beach road, so called, as laid out by the municipal officers in October, 1938, and raise a sum of money for the reconstruction of same, said road extending from the easterly end of that part of the so called Harmon's Beach road now accepted, to the water's edge at the shore of Sebago Lake.

(The Budget Committee recommends that the above road be NOT ACCEPTED.)

Art. 15. To see if the town will vote to raise and appropriate a sum of money to be expended for publicity through the Sebago Lake-Long Lake Region Association.

(The Budget Committee recommends \$100.00.) *yes*

Art. 16. To see if the town will vote to pay the same wages for labor, men and trucks on town ways, as is now paid by the State, on State aid and third class roads, in accordance with the State scale of wages.

(The Budget Committee recommends THAT STATE RATES BE PAID.)

Art. 17. To see if the town will vote to authorize the superintending school committee to continue the suspension of the Elmwood School, if in their judgment it seems advisable.

(No recommendation by Budget Committee.)

Art. 18. To see if the town will vote to raise and appropriate a sum of money not to exceed \$2,800.00 per year for hydrants, as explained at a special town meeting. (Article by Petition.)

(The Budget Committee makes no recommendations.)

Art. 19. To see if the town will vote to allow a discount on taxes paid before a certain date, or charge interest thereon on taxes due after a certain date, and set a date at which all taxes shall be due and payable.

(The Budget Committee recommends same as 1938.)

Art. 20. To see if the town will vote to use the secret method of electing town officers for the year of

1940 and thereafter, or until such time as some other action may be taken at an annual town meeting.

(No recommendation by Budget Committee.)

Art. 21. To see if the town will vote to instruct its municipal officers to carry on town business on a day-light saving schedule, as in 1938, and thereafter, or until such time as some other action may be taken by the town at an annual town meeting.

(No recommendation by Budget Committee.)

Art. 22. To see if the town will vote to authorize the selectmen and treasurer to make temporary loans pending the collection of taxes.

(No recommendation by Budget Committee.)

Art. 23. To see what action the town will vote to take regarding the removal of snow and ice on town roads for the winter of 1939-1940.

(No recommendation by Budget Committee.)

Art. 24. To see what action the town will vote to take regarding the town farm for the ensuing year.

(No recommendation by Budget Committee.)

Art. 25. To see if the town will vote to authorize the assessors to rescind any amounts appropriated by the town for State aid highway construction in excess of the amount required to meet State apportionments.

(No recommendation by Budget Committee.)

Art. 26. To see if the town will vote to remove snow from all driveways during the winter of 1939-1940, where dwellings are situated a distance of 225 feet or more from town or State highways. (Article by Petition.)

(No recommendation by Budget Committee.)

Art. 27. To see if the town will vote to authorize the selectmen to sell the real estate of the estate of the late Alpheus S. Harmon.

(No recommendation by Budget Committee.)

Art. 28. To see if the town will vote to raise and appropriate the sum of \$40.00 for public health work in Standish, said sum to be expended by the Bureau of Health, State Department of Health and Welfare, in coöperation with local authorities. (Article by request of State Department of Health and Welfare.)

(The Budget Committee recommends that the sum of \$40.00 be raised.)

Art. 29. To see if the town will vote to authorize the selectmen on behalf of the town to sell and dispose of any real estate acquired by the town for non-payment of taxes thereon, on such terms as they deem advisable, and to execute quitclaim deeds for such property.

(No recommendation by Budget Committee.)

The selectmen hereby give notice that they will be in session at the above-named hall and place of meeting on Saturday, the fourth day of March next, for the purpose of correcting the list of voters, from ten o'clock in the forenoon until four o'clock in the afternoon.

Given under our hands this 25th day of February,
A. D. 1939.

RALPH C. HOSMER,

JOHN M. RAND,

WALTER W. SMITH,

Selectmen of Standish.

(D) Truant officer, recommended, \$.50 per hour.

Art. 6. PROTECTION: To see what sum of money the town will vote to raise and appropriate for Protection for the ensuing year.

(A) Fire department, recommended, \$2,300.00.

(B) Street lights, recommended, \$1,500.00.

Art. 7. To see if the town will vote to raise and appropriate a sum of money to purchase forest fire hand tools as recommended by the State Forest Service, recommended, Yes, \$25.00.

Art. 8. To see if the town will vote to pay the firemen fifty cents per hour, with a one dollar minimum per call.

Recommended, Yes.

Art. 9. HIGHWAYS AND BRIDGES: To see what sum of money the town will vote to raise and appropriate for Highways and Bridges for the ensuing year.

(A) Snow and ice removal, recommended, \$3,500.00.

(B) General repairs, recommended, \$4,000.00.

(C) To see what sum the town will vote to raise and appropriate for State aid road construction in addition to amounts regularly raised for the care of ways, highways or bridges, under the provisions of Section 19, Chapter 28, Revised Statutes of 1930, or under the provisions of Section 3, Chapter 229, Public Laws of 1937, recommended, \$1,400.00.

(D) Maintenance of third class roads, recommended, \$1,450.00.

(E) Maintenance of patrol roads, recommended, \$1,600.00.

(F) Tarring town roads, recommended, \$1,850.00.

(G) Repair of bridges, recommended, \$150.00.

Art. 10. To see what action the town will vote to take regarding the removal of snow and ice from winter roads for the winter of 1940-41.

Recommended, that Selectmen contract for same.

Art. 11. CHARITIES: To see what sum of money the town will vote to raise and appropriate for the following expenses for the ensuing year:

(A) Poor relief, town, recommended, \$6,000.00.

(B) Aid to dependent children, recommended, \$930.00.

(C) Town farm account, recommended, No Appropriation.

Art. 12. EDUCATION: To see what sum of money the town will vote to raise and appropriate for Education for the ensuing year.

(A) Elementary schools, recommended, \$9,800.00.

(B) Conveyance of high school pupils, recommended, \$900.00.

(C) High school, recommended, \$6,300.00.

(D) Textbooks and supplies, recommended, \$2,000.00.

(E) School repairs and insurance, recommended, \$1,800.00. 2

(F) Musical instruction in the schools; recommended, \$500.00.

Art. 13. To see what action the town will vote to take in regard to the insurance of school buildings.

Recommended, To accept Plan.

Art. 14. To see what action the town will vote to take in regard to providing a course in Home Economics in the high school, and to raise and appropriate a sum of money for same.

Recommended, No Recommendation. ~~Recommended, To accept Plan.~~

Art. 15. To see if the town will vote to authorize the superintending school committee to appoint a school physician for the ensuing year, and to raise and appropriate a sum of money for same.

Recommended, \$500.00.

Art. 16. MEMORIAL DAY: To see what sum of money the town will vote to raise and appropriate for Memorial Day for the ensuing year.

(A) Charles A. Warren Post, recommended, \$25.00.

(B) Berdan J. Kennison Post, No. 128, American Legion, recommended, \$25.00.

(C) Care of pauper's graves, recommended, \$25.00.

Art. 17. MISCELLANEOUS ACCOUNTS: To see what sum of money the town will vote to raise and appropriate for the following accounts:

(A) Abatements, recommended, \$150.00.

(B) Payment of interest, recommended, \$500.00.

(C) Payment of town notes, recommended, \$2,000.00.

(D) Care of town dumps, recommended, \$100.00.

(E) Interest on school fund notes, recommended, \$93.60.

Art. 18. To see if the town will vote to raise and appropriate a sum of money to be expended for publicity.

Recommended, \$100.00.

Art. 19. To see if the town will vote to pay the same wages per hour for labor, teams and trucks, on town ways for the ensuing year as is now paid by the State, on State aid roads, excepting work on W. P. A. projects.

Recommended, State Rates.

Art. 20. To see if the town will vote to raise and appropriate a sum of money for W. P. A. projects, with any unexpended balance to be used for retirement of town notes.

Recommended, \$2,500.00.

Art. 21. To see if the town will vote to raise and appropriate a sum of money not to exceed \$2,800.00 per year for hydrants; said amount to be applied to the retirement of town notes; provided that hydrants are not installed.

Recommended, \$2,800.00.

Art. 22. To see if the town will vote to charge interest on taxes due after a certain date, and set a date at which all taxes shall be due and payable.

Art. 23. To see if the town will vote to authorize the selectmen and treasurer to procure a temporary loan or loans in anticipation of taxes for the purpose of paying obligations of the town; such loan or loans to be paid during the current municipal year out of money raised during said current municipal year.

Recommended.

Art. 24. To see what action the town will take regarding the town farm for the ensuing year.

Recommended, Be left in hands of selectmen.

Art. 25. To see if the town will vote to raise and appropriate a sum of money for public health work in Standish for the ensuing year.

Recommended, \$40.00.

Art. 26. To see if the town will vote to authorize the superintending school committee to sell the Elmwood School building.

Recommended, Yes, to sell.

The selectmen hereby give notice that they will be in session at the above-named hall and place of meeting on Saturday, the second day of March next, for the purpose of correcting the list of voters, from ten o'clock in the forenoon until four o'clock in the afternoon.

Given under our hands this 23rd day of February,
A. D. 1940.

JOHN M. RAND,

WALTER W. SMITH,

RALPH C. HOSMER,

Selectmen of Standish.

AUDITOR'S REPORT

February 6, 1940.

To the Board of Selectmen, Standish, Maine:

GENTLEMEN:—

This is to certify that we have audited the accounts of the selectmen, treasurer, and collector of taxes of the Town of Standish for the year ending January 31, 1940, and that the financial standing of the town, as shown by the comparative balance sheet, was correct as of that date to the best of our knowledge and belief.

The Net Debt at the end of last year, amounting to \$4,533.10, has been changed to a Net Surplus at the end of the current year, amounting to \$2,434.24. Notes amounting to \$4,800.00 have been paid by appropriation and an additional \$539.77 has been paid on notes from the General Cash account. The Summary of Accounts shows that the selectmen have kept within their appropriations in most of their accounts and there was a net unexpended balance of \$3,681.10 at the end of the year. There was, however, a large overdraft in the Snow and Ice account. We would recommend that a larger appropriation be made for this account.

The overdraft in the State Aid Construction account has been written off this year. This money was spent in prior years and was to be reimbursed by the State. Due to legislative action the reimbursement unit was cut down and therefore was not repaid by the State.

The treasurer has accounted for all receipts and disbursements. The collector of taxes has accounted for his commitment and supplemental taxes, with the exception of \$1,587.64 in uncollected taxes.

Respectfully submitted,

EDWARD T. SULLIVAN.

ANNUAL REPORT OF PUBLIC HEALTH NURSING SERVICE, 1939

The public health nursing service covers the nurse supervision of expectant mothers, infants, pre-school and school age children. The report covers this general program. The work is carried largely through home visits and child health conferences. These contacts are made for the purpose of giving help in meeting the health needs of the family through advice and demonstration of methods of care in the home.

The encouragement of parents in the care of the family is most gratefully received. Through the nurses' home visits, medical supervision is urged where needed for treatment or correction of defects.

The importance of using the proper diet for maintenance of health and normal growth is discussed with families, and aid given in planning food budgets.

The protection of children with communicable diseases, the protection of others from those who are ill, and immunization against certain diseases is stressed. Whenever possible, child health conferences are held with the local people making the choice of examining physician and the State Bureau of Health paying for his services. The nurse is always alert to any crippling condition in children and with the consent of the physician, the services of the crippled children clinics, which are held in several sections of the State, are recommended to the family.

As other defects are found, the nurse calls these conditions to the attention of the parents with recommendations to secure advice from physician or dentist regarding care or treatment. In cases where the cost of corrective work cannot be assumed by the family, the nurse endeavors to enlist the interest of groups or agencies to assist in meeting these needs.

Monthly visits were made. Several new patients were admitted to the service, forty-eight in all. These included expectant mothers, infants, children of pre-school age, school children, and crippled children. There were ninety-six visits made to these patients.

SCHOOL REPORT

REPORT OF SUPERINTENDENT OF SCHOOLS

*To the Superintending School Committee and Citizens
of the Town of Standish:*

The annual report is herewith submitted.

In submitting this, my twentieth report, I wish to express my appreciation for the support that has been given our schools for the period of twenty years. This support has been consistent at all times even when many communities have been greatly handicapped by adverse financial conditions. We have been able to pay satisfactory wages to our teachers, and provide excellent working conditions and equipment, and most satisfactory of all, we have retained an excellent teaching force. We have been able to make some definite gains each year through your continued support, in building construction and equipment. In this way it has been possible to improve the environment for study and bring our buildings up to a high standard.

NEW TRENDS IN EDUCATION

These are days of testing and evaluation of the subject matter in our schools. There seems to be a tendency to return to fundamentals and the practical in education as in all walks of life. By repeated tests it has been found that much subject matter does not have a definite place in the lives of the pupils. Many high school textbooks in the past have been written with the view of college entrance requirements. But the excellent textbooks that are available today have been written along more practical lines to meet the needs of the large majority of students rather than the few who want college preparation. At the same time, these books meet all college requirements of today. The individual welfare of the child is our greatest concern. Today we try to safeguard the child's health through physical examination and a course in physical education. Also effective teaching includes guidance in learning as well as instruction in subject matter.

Music in the schools contributes richly to the de-

velopment of the child's personality by creative opportunities in song dramatization, in study of folk songs of different people and in music appreciation. Through socialized recitations in geography and history the pupils learn more than unrelated facts. Today we need the training that leads to a greater appreciation of our national institutions and a better understanding of the relation of our economic and social problems to our national life.

REPAIRS,

The coal bin in the high school was fireproofed by building concrete walls and the ceiling was made of hard plaster and steel lathing. This was a very necessary step in safeguarding our high school property from fire hazards. The losses in this State have been very large from the burning of school buildings. It is a wise policy to remove all possible hazards where the replacement value is as large as in the high school. Last year the removal of the laboratory from the basement was a very wise precaution.

New draper adjustable shades have been purchased for the two rooms at Steep Falls and the Albion Howe School. These shades are attractive in appearance and very durable.

Two new Royals and two new Underwood typewriters were purchased before the advance in prices on these machines. Good trade-in values were obtained on the old machines.

A new heater was purchased to heat water for shower baths in the high school and a coil was connected with the boiler for use for this purpose during part of the year.

Respectfully submitted,

GEORGE E. JACK,

Superintendent of Schools.
